

INJURED IN COLLAPSE OF 80-TON CRANE
s estimated at between \$100,000 and \$250,000

...gapped traffic over-
looking the Port area.
James Pak, 44, of Sunnyvale, a crane operator employed by the Higge Crane and Rigging Co., was treated for minor hip injuries at Providence Hospital.
But damage was estimated at between \$100,000 and \$250,000 to a 200-foot crane and to two smaller truck cranes hoisting an 80-ton platform into place.
The Sea-Land crane, used to carry cargo onto ships and

...our capacity truck crane to hold it aloft. Workmen cleared out the 80-ton platform, bearing winching equipment and loading gear, slowly toward the dock.
The massive, girder-braced section hung in a vertical position, just 40 feet off the dock when the second crane's cables gave way.
Plummeting that distance, the steel section smashed through wooden shoring underneath it, which served to soften the crash.

...Lake Temescal will continue to be open to the public from 10 a.m.-6 p.m. on Saturdays and Sundays.

...“Bigge’s safety factors were excellent,” said Sea-Land operations manager Charles Palen. “It could have been much worse. That platform could have gone right through the dock, without those safety factors.”
