Comments attached from NOAA GC. Possible we get another set from NMFS but COB has passed and sending these in the interest of time.

NOAA and DOC policy has reviewed and had no concerns.

Hi Stu,

Attached are NOAA GC's comments on the current draft MOA. If you download the document, you can see comment bubbles explaining why we have flagged these particular areas of concern. The final edit has no corresponding comment bubble, but is intended to make clear that any stakeholder engagement would need to be consistent with the requirements of FACA which, depending on the circumstances, could place certain limitations or conditions.

Thanks,
Kristen
