Subject: VI Response Document on Community Health and Safety
Impacts of VCM Emissions

Please refer to my earlier memo on this subject dated December 27, 1985, copy attached.

To this point I have received comments and some suggestions from W.C. Holbrook and John Barr has sent me papers on hazard evaluation and risk assessment and on safety and environmental concerns. Inasmuch as most of the copy recipients will be in Washington on March 5 for the Vinyl Institute Executive Board Meeting, I would like to have a short meeting following the conclusion of the Board Meeting to discuss the format, content and development of such a "Response Document".

I believe we short be able to start our discussion about 2:00 p.m. and I believe we should be able to conclude in about one hour.

I hope you will be able to attend.

Roy T. Gottesman
