

1928

INDEX

Volume I.

- A B C Session, Minutes, 59-90.
 Nominating Committee report, 77.
 Accident Statistics: Cement industry, 792-793.
 Cement industry in "what organized safety work has done for the cement industry" (Possett), 795-799.
 Construction section Statistics Committee report (Robinson), 927-928.
 Discussion on man-failure, 1010-1011.
 Eastman Kodak Co. in "Solving our most serious problem" (Armstrong), 167.
 Fire Statistics, 175-176.
 In "One-man car operation from a safety viewpoint" (Scanlon), 983-985.
 Low-voltage electrical accidents, 274.
 Massachusetts in "Part mechanical safeguarding plays" (Beyer), 63-64; 66.
 New York State accident statistics, in "Economic value of safety to the contractor" (Hamilton), 923-924.
 "Our most serious problem and how it was solved" (Black), 162-164.
 "Status of the chemical industry as revealed by accident experience" (Armstrong), 888.
 Whittall, M. J., Associates. In "Our most serious problems and how they were solved" (Lord), 161.
 Accidents-Costs: "Cost of an accident" Darling), 158.
 Aerodrome. (See Airports.)
 Aerodynamics Sessions: Minutes, 423-463.
 Aeronautics. (See Aircraft.)
 Aircraft: "Accidents analysis" (Brown), 756-759.
 "Aeronautical lighting as an aid to safety" (Hingsburg), 545-562.
 "Aircraft accidents—method of analysis" (Ames), 760-772.
 Airports and airways sessions, 497-542.
 "Commercial airplane—structural reliability from the operator's point of view" (Smith), 412-417.
 "Communication as an aid to safe flying" (Hunsaker), 579-584.
 "Control of aircraft in air transport service" (Henderson), 659-662.
 "Desirable aerodynamic characteristics" (Klemin), 423-435.
 "Directional radio as an aid to safe flying" (Dellinger), 564-572.
 Discussion on balloon equipment and personnel in electric storms, 694-695.
 Discussion on Captain Echols' paper (Shoemaker), 478-489.
 Discussion on chrome-molybdenum steel tubing, 418-419.
 Discussion on crystallization of aircraft engines, 662.
 Discussion on engine rating, 460-461.
 Discussion on heating hangars, 663.
 Discussion on ice formation, 419-420.
 Discussion on insulating vibrations from fuselage, 418.
 Discussion on location of pilot's seat, 417.
 Discussion on paper of Professor Rossly, 635-636.
 Discussion on parachutes, 741.
 Discussion on Professor Rossly's paper (Woodman), 696-697.
 Discussion on qualifications and licensing of aviators, 645-646.
 "Federal legislation relative to safety" (MacCracken, Jr.), 772-777.
 "Field service and maintenance of aircraft engines" (Woolson), 456-458.
 "Fire prevention in modern airplanes and recent experimentation" (Echols), 475-477.
 Fire prevention session, 474-495.
 "Flight characteristics of an airplane from a safety point of view" (Carroll), 435-442.
 "Inspection and maintenance in air transport" (Moseley), 665-668.
 "Inspection of airplane structure and materials in construction and operation" (Howard), 403-412.
 "Laboratory and service tests for engine safety" (Dickinson), 444-448.
 Legislation session, 772-790.
 Letter from two N. S. C. presidents, 790.
 "Measures adopted in Italian civil aviation for general safety" (Molfese), 647-658.
 "Medical aspects of safe flying" (Bauer), 609-614.
 "Meteorology as an aid to safe flying" (Gregg), 687-696.
 "Modern power plant from the point of view of safety" (Mead), 464-471.
 "Municipal legislation relative to safety" (Raymond), 785-787.
 "Navigation instruments and fog flying" (Hegenberger), 594-602.
 Navigation session, 545-607.
 "Non-scheduled flying" (Stout), 708-710.
 "Operation of aircraft in air transport session," 659-673.
 "Organization of weather service for safe flying on an airway" (Rossly), 675-685.
 "Outstanding requirements for safety in airships" (Wiley), 640-646.
 "Parachute in passenger flying" (Hoffman), 742-751.
 Passenger service minutes, 733-772.
 "Power plants" (Warner), 443.
 "Private flying and ownership" (Fairchild), 701-705.
 Public and flying minutes, 701-715.
 "Requirements and training for a commercial pilot" (Lindbergh), 718-720.
 "Requirements and training of ground personnel" (Wilson), 727-732.
 "Safety in aircraft engines and their installation" (Lawrence), 449-455.
 Safety of aircraft operation session, 627-658.
 "Safety of passengers" (Mayo), 734-740.
 "Safety of the airship and the airplane for trans-oceanic operation" (Warner), 627-633.
 "Some of General Nobile's ideas about non-rigids, semi-rigids and rigids," 647-658.
 "Structural analysis and design in relation to commercial aviation safety" (Wright), 393-403.
 "Study of precautions against fire on board of airplanes" (Sabatier), 480-495.
 See also, Airports; Airways; Lighting Aircraft; Medical supervision of employees (Aircraft); Fire Prevention (Aircraft); Insurance (Aircraft).
 Aircraft Sessions: Minutes, 393-790.
 Airports: "Aeronautical Lighting as an aid to safety" (Hingsburg), 545-562.
 "Airport operation from a safety point of view" (Berry), 514-517.
 "Designing safe and adequate airports" (Blee), 497-508.

- Discussion on adequate airports (Duke), 509-514.
- Discussion on operation of airdrome from safety point of view (Halsted), 538-541.
- "Measures adopted in Italian civil aviation for general safety (Molfese), 647-658.
- "Operation of aerodrome from safety point of view" (Richard), 534-538.
- Airports and Airways: Session, 497-542.
- Airship, see Aircraft.
- Airways: "Aeronautical lighting as an aid to safety" (Hingsburg), 545-562.
- "Airway selection from a safety point of view" (Pitcairn), 522-526.
- "Communication as an aid to safe flying" (Hunsaker), 579-584.
- Discussion on Dr. Hunsaker's paper, 592-594.
- "Discussion on weather and communications from an airways maintenance point of view" (Hingsburg), 585-588.
- "Instrument navigation and fog flying" (Lonnquest), 602-604.
- "Making the airway" (Hockaday), 529-534.
- "Memorandum" (Ocher), 604.
- "Navigation instruments and fog flying" (Hegenberger), 594-602.
- See also Aircraft, Airports.
- American Society of Safety Engineers. (See Engineering Section.)
- Ames, Dr. J. S.: "Aircraft accidents—method of analysis," 760-772.
- Annealing Chains: Discussion (Thomas), 267-270.
- "Progress report of Research Committee on the effects of annealing of chains" (Thalner), 251-267.
- Report (Daniels and Thomas), 254-256.
- Report (Thomas), 257-267.
- Annual Banquet, (See Banquet).
- Annual Meeting of Members, (See Business Section).
- Architects: "Architect's cooperation in Safety" (Shreve), 921-922.
- Armstrong, A. L.: "Solving our most serious problem," 164-167.
- "Status of the chemical industry as revealed by accident experience," 888-889.
- Automotive Section: Minutes, 313-391.
- Nominating Committee, 331.
- Officers, 313.
- Secretary's report (Sain), 332.
- Aviation. (See Aircraft.)
- Banash, J. I.: "Industrial gases," 908-911.
- Banquet: Minutes, 43-58.
- Bauer, Dr. L. H.: "Medical aspects of safe flying," 609-614.
- Beck, E. W.: "Elements of a successful no-accident contest," 109-117.
- "Presentation of trophies at Electric Railway Section," 1042.
- Belts: For aviators, 664-665.
- Benefit Associations, (See Employees' Benefit Associations).
- Beresford, A. W.: "Safety and production," 135-138.
- Berquist, A. D.: "Our most serious problems and how they were solved," 167-169.
- Berry, J.: "Airport operation from a safety point of view," 514-517.
- Beyer, D. S.: "Part mechanical safeguarding plays," 59-67.
- Black, C. H.: "Our most serious problem and how it was solved," 162-164.
- Report of the Poster Committee of the Construction Section, 923-930.
- Blake, R. P.: "Address," 807-812.
- Blee, H. H.: "Designing safe and adequate airports," 497-508.
- Bonus Systems: Discussion, 1016-1018.
- Booth, W. H.: "Humanics of industry," 23-29.
- Boswell, F. W.: Nominating Committee report of Employees' Publication Section, 1102-1103.
- Bowen, P. J.: "What's it all about? The foreman and safety," 317-319.
- Brown, C. R.: "Accident analysis," 756-759.
- Brundage, D. K.: "Value of uniform statistics in preventing sickness," 1080-1087.
- Bryce, W. H.: Membership Committee report, 961.
- Buffum, A. W.: "Volunteer critic's conclusions concerning the editorial content of employees' publications," 1104-1107.
- Bugbee, P.: "Facts written in flame," 177-180.
- Building Trades Employees' Association, City of New York: Joint session with Construction Section, 919-957.
- "Safety by New York contractors" (Lohmann), 930-934.
- Bulletins: "Posters in accident prevention work" (Miller), 891-893.
- Report of the Poster Committee of Construction Section (Black), 923-930.
- Burns: Discussion on acid burns, 171.
- Discussion on caustic burns, 874.
- Discussion on eye burns, 874.
- "Treatment of the effects of irritating gases and of extensive superficial burns" (Underwill), 866-874.
- See also First Aid.
- Bus Operation: "Bus operation from a railway man's point of view" (Warner), 1012-1016.
- Claim costs, 1016.
- Discussion on sand equipment, 1018.
- Training operators, 1019.
- Business Section: Minutes, 9-41.
- Cameron, W. H.: Annual report of Managing Director, 33-38.
- Campaigns—Industrial: "Elements of a successful no-accident contest" (Beck), 109-117.
- Carbon Monoxide: Discussion, 876.
- Carroll, T.: "Flight characteristics of an airplane from a safety point of view," 436-442.
- Causes of Accidents. (See Classification of Causes of Accidents.)
- Cement Industry: "Putting safety across in the cement plant" (Cline), 814-817.
- "What organized safety work has done for the cement industry" (Posselt), 794-799.
- Cement Section: Chairman's address, 791-794.
- Minutes, 791-837.
- Nominating Committee report, 804.
- Officers, 791.
- Poster Committee report, 817-818.
- Chains. (See also Annealing Chains.)
- Chemical Industry: "Accident prevention from the viewpoint of the labor commissioner" (Roach), 845-846.
- Discussion on drum explosives, 848-852.
- Discussion on gauging, 865.
- "Gauging and sampling" (Shapleigh), 853-865.
- "General discussion of health hazards in the chemical industry from the insurance viewpoint" (Paine), 884-887.
- "Health hazard of the chemical industry from the viewpoint of the Department of Labor" (Graham-Rogers), 877-881.
- "Safety in chemical engineering" (Parmelee), 842-844.
- "Solving our most serious problem" (Armstrong), 164-167.
- "Status of the chemical industry as revealed by accident experience" (Armstrong), 888-889.
- "Viewpoint of the underwriter" (DeBlois), 846-847.

- Chemical Section: Chairman's report (Greenburg), 840-841.
Minutes, 839-918.
Nominating Committee report, 904.
Officers, 839-840.
- Cheney, H.: "Continuity of service," 203-209.
Classification of Causes of Accidents:
In "Address" (Ferguson), 32-33.
In "Aircraft accidents—method of analysis" (Ames), 760-772.
In "Federal legislation relative to safety" (MacCracken, Jr.), 775.
"Origin of Accidents" (Heinrich), 127-131.
- Cline, J. R.: "Putting safety across in the cement plant," 814-817.
- Clinton, W.: "Accident prevention and insurance," 801-803.
- Close, G. F.: Chairman's report at Employees' Publication Section, 1096-1097.
"What should be the burden of the employees' benefit association section's program for 1929?" 1092-1094.
- Codes: "Report of the Steering Committee on research, standards and code" (Keown), 285-289.
- Committees:
"Safety committees" (Fracher), 383-384.
Company Magazines, (See Employees' Publications).
Competition: "Presentation of trophies at Electric Railway Section" (Beck), 1042.
"Presentation of trophy at Electric Railway Session" (Parsons), 1039-1041.
- Compressed Gases: Discussion on handling, 905-908.
- Conferences: "Report of Steering Committee on regional safety conferences," 289-290.
- Conover, R. G.: "Report of the editorial questionnaire committee," 1127-1130.
- Construction Industry: "Architect's cooperation in safety" (Shreve), 921-922.
"Economic value of safety to the contractor" (Hamilton), 922-925.
"Our most serious problem and how it was solved" (Black), 162-164.
"Safety by New York contractors" (Lohmann), 930-934.
"Safety in steel erection" (Thomas), 948-951.
"Safety in the construction industry from the viewpoint of the state" (Waters), 945-946.
- Construction Section: Minutes, 919-957.
Nominating Committee, 947.
Officers, 919.
Poster Committee report (Black), 928-930.
Secretary's and the Statistics Committee report (Robinson), 927-928.
- Contests: Discussion, 118-120; 123; 325-327.
"Elements of a successful no-accident contest" (Beck), 109-117.
"Safety through contests" (Catcher), 320-322.
- Coolidge, C.: Letter, 44.
- Cooperation: "Promotion of accident prevention through inter-departmental cooperation" (Reynolds), 971-981.
- Cordell, H.: "Shop employee's contribution to a safe railway," 1001-1006.
- Catcher, E. H.: "Safety through contests," 320-322.
- Crow, T. W. A.: "Address of welcome on behalf of New York City," 10.
- Daniels, J. M., and Thomas, H. A.: Report on annealing chains, 254-256.
- Darling, W.: Cost of an accident, 158.
- DeBlois, L. A.: "Safety and the individual," 132-135.
"Viewpoint of the underwriter," 846-847.
- Dellinger, Dr. J. H.: "Directional radio as an aid to safe flying," 564-572.
- Dickinson, H. C.: "Laboratory and service tests for engine safety," 444-448.
Directors of N. S. C.: 4-7.
- Diseases—Occupational: In "Shop employees' contribution to a safe railway" (Cordell), 1004-1005.
- Drums: Discussion on drum explosion, 848-852.
Discussion on handling drums, 848-851.
- Dublin, Dr. L. I.: "Economic value of life and health in industry," 200-203.
- Duke, D.: Discussion on adequate airports, 509-514.
- Dunnbacke, A. F.: "Introduction of the new employee," 357-366.
Nominating Committee report, 331.
- Dust Explosions: Discussion on tarred pitch, 852.
- Dutton, H. P.: "Report of the judges' committee," 1115-1116.
- Eastham, E. K.: "Chairman-elect's speech," 1008.
- Echols, O. P.: "Fire prevention in modern airplanes and recent experimentation," 475-477.
- Economic Value of Life: "Economic value of life and health in industry" (Dublin), 200-203.
- Economics: "Economic value of safety to the contractor" (Hamilton), 922-925.
- Education: "Other seventy-five per cent" (Williams), 68-73.
- Education—Engineering: "Report of Committee on accident prevention in Engineering Colleges," 292.
- Electric Railway Section: Chairman's report (Kohler), 960-961.
Committee Chairmen, 1008.
Joint luncheons with Public Utilities Section, 1039-1045.
Membership Committee report (Bryce), 961.
Minutes, 959-1045.
Nominating Committee report, 1006.
Officers, 959-960.
Poster and Slide Committee report, 962-963.
"Presentation of trophies" (Beck), 1042.
"Presentation of trophy" (Parsons), 1039-1041.
Program Committee report, 962.
- Electric Railways:
Discussions on curve cleaners, 1030.
Discussion on making change while in motion, 1034.
Discussion on right-of-way, 994.
Discussion on speed, 996-998.
Discussion on talking, 1032-1033.
Discussion on window wipers, 970.
Discussion on yellow lines on streets, 1030-1031.
"Overcoming transportation hazards," (Fennell), 964-969.
"One-man car operation from a safety viewpoint" (Scanlon), 982-986.
"Promotion of accident prevention through inter-departmental cooperations" (Reynolds), 971-981.
"Reconciling increased speed with safety" (Storrs), 987-993.
"Shop employees' contribution to a safe railway" (Cordell), 1001-1006.
- Electricity: "Low-Voltage Electrical Committee report" (Whiting), 273-277.
- Electricity Injuries: "Currents going through body," 827.
"Low-Voltage electrical accidents in cement plant," 820.
- Electricity—Static: "In solving our most serious problem" (Armstrong), 165.
- Employees' Benefit Associations Section: Minutes, 1047-1094.

- Nominating Committee report, 1054.
Officers, 1047.
"Past, present and future" (McEwen), 1047-1048.
"What should be the burden of the employees' benefit association section's program for 1929?" (Close), 1092-1094.
Employees' Benefit Associations: "Hospital and surgical benefits as a part of relief plans" (Grant), 1071-1074.
"Should pension plans and relief plans be combined for greater economy and effectiveness?" (Jackson), 1087-1091.
"Sickness insurance through benefit plans vs. state insurance" (Geier), 1055-1060.
"Using benefit associations for better cooperation in safety, health and other employee activities" (Ley), 1060-1067.
"What further assistance, if any should be given to disabled members who have exhausted their benefits, and what is a fair measure of disability qualifying for benefits?" (Ferguson), 1075-1079.
Employees' Publication Section: Chairman's report (Close), 1096-1097.
Editorial questionnaire committee report (Conover), 1127-1130.
Minutes, 1095-1142.
Nominating committee report, 1102-1103.
Officers, 1095-1096.
Prize Contest Committee report (Dulton), 1115-1116.
Employees' Publications: Discussion of Miss Buffum's paper (McReynolds), 1107-1112.
"Getting the most out of the illustration budget" (Groesbeck), 1136-1140.
"Make-up and art in employees' publication" (Riedel), 1097-1099.
"Opportunities for improving the editorial contents of employees' publications" (Wilkins), 1120-1127.
"Volunteer critic's conclusions concerning the editorial content of employees' publications" (Buffum), 1104-1107.
"Why be an editor?" (Lee), 1117-1119.
Employment: "Continuity of service" (Cheney), 203-209.
Engineering Education, (See Education, Engineering).
Engineering Section: Discussion on proposed amendments, 295-297.
Membership Committee report, 289.
Minutes, 249-311.
Nominating Committee report, 297-298.
Officers, 249-251.
"Progress report of Research Committee on the effects of annealing on chains" (Thalner), 251-267.
"Progress report of the Research Committee on the elimination of harmful noise" (Snook), 299-311.
"Report of Committee on Accident Prevention in Engineering Colleges," 292.
"Report of the Committee on Chapter Organization and Activities," 290-291.
"Report of the Low-Voltage Electrical Committee" (Whiting), 273-277.
"Report of Steering Committee on Regional Safety Conference," 289-290.
"Report of the Steering Committee on Research, Standard and Codes" (Keown), 285-289.
Engineers and Executives, Industrial: Minutes of special session, 125-149.
Executive Committee—N. S. C.: 3-4; 45.
Faddis, W. S.: "Address of welcome," 920-921.
Fairchild, S. M.: "Private flying and ownership," 701-705.
Fennell, D. L.: "Overcoming transportation hazards," 964-969.
Ferguson, Dr. C. L.: "What further assistance, if any, should be given to disabled members who have exhausted their benefits, and what is a fair measure of disability qualifying for benefits?" 1075-1079.
Ferguson, H. L.: "Address," 30-33.
Fire Extinguishers: "Recent developments in fire prevention and fire protection" (Newell), 189-194.
For Aircraft, 741.
Fire Prevention: Discussion on compensation paid to fire department, 196.
"Facts written in flame" (Bugbe), 177-180.
"Recent developments in fire prevention and fire protection" (Newell), 189-194.
Fire Prevention Session: Minutes, 175-197.
Nominating Committee report, 197.
Fire Prevention Sessions (Aircrafts), 474-495.
First Aid: Gas poisoning. See "Treatment of the effects of irritating gases and of extensive superficial burns" (Underhill), 869.
In "Treatment of the effects of irritating gases and of extensive superficial burns" (Underhill), 866-874.
Flying. (See Aircraft; Airports; Airways; Lighting—Aircraft; Navigation—Aircraft.)
Flying and Ground Personnel Session (Aircrafts): Minutes, 717-732.
Flynn, T. O.: "Rehabilitation," 368-370.
Foreign Workmen: In "What organized safety work has done for the cement industry" (Posselt), 796-798.
Foremen: Discussion on reporting unsafe practices, 172.
Discussion on their education, 76.
"Our most serious problems and how they were solved" (Lord), 160-161.
"Our most serious problems and how they were solved" (Berquist), 167-169.
"What's it all about? The foreman and safety" (Bowen), 317-319.
Fortuin, R. B.: Poster committee report, 817-818.
Fracher, H. L.: "Safety Committees," 383-384.
Fumes and Vapors irritating: Discussion, 853-854.
"Gas masks and respirators" (Henderson), 893-899.
"Treatment of the effects of irritating gases and of extensive superficial burns" (Underhill), 866-874.
Gas masks, see masks.
Gases: "Industrial gases" (Banash), 908-911. (See also Compressed Gases.)
Gauging. (See Chemical Industry.)
Gehrmann, Dr. G. H.: "Health Hazards from the viewpoint of the industry," 882-884.
Geier, Dr. O. P.: "Sickness insurance through benefit plans vs. state insurance," 1055-1060.
General Round Table, (See Round Table Session).
Gibson, J. B.: "Good housekeeping in the manufacturing department," 352-355.
Goggles: Discussion on getting men to wear goggles, 366-368.
Graffin, Dr. S. W.: "First thing first," 940-945.
Graham-Rogers, C. T.: "Health hazard of the chemical industry from the viewpoint of the Department of Labor," 877-881.
