We would like to invite you to the PFAS WP7 CA meeting of March 24th. During this meeting we would like to discuss how we can best come to an overall proportionality assessment assuming many different individual uses, and large data gaps on the side of cost and/or risk reduction capacity for some of these. In the attached PowerPoint, you will find the proposed agenda for the meeting.

Furthermore, I would like to inform you that [REDACTED] the coordinator of WP4 is organizing 2, has scheduled online sessions to discuss the results of WP4. In these sessions short summaries will be given of the WP4 reports. The session dates are:

- March 23, 10:30 – 12: 00 CET (production, lubricants and construction, cosmetics, medial, F-gases), and
- April 16, 9:00 – 13:00 CET (Textiles, FCM, consumer mixtures, ski wax, chrome plating, petroleum and mining, transportation, electronics, waste).

As the reports will be used in WP7, it may be interesting for you to follow these presentations. If you would like to join, but have not yet received the webex links to the meeting, please give me a signal so that I can forward it to you.

As a reminder please see below the proposed meeting schedule for WP7 meetings for the rest of this year:
