Dr. R. A. Kehoe
University of Cincinnati
Kettering Laboratories
Eden Avenue
Cincinnati 19, Ohio

Dear Dr. Kehoe:

In accordance with our today's telephone conversation, I am enclosing herewith letters dated April 9 and 27 and May 7 from Socony Mobil Research Department giving details of possible sites for the miniature field test of TML, (Socony Mobil Code XRT 238 A). The locations described are the Paulsboro Refinery garage, the Paulsboro Sales Office, the Mobil Refinery at Trenton, Michigan and Mobil Sales Terminal at Avery Avenue, Detroit, Michigan.

I mentioned over the phone and you understood from previous discussions that the Paulsboro Refinery garage location should probably be ruled out for a good reason which has been stated by Don Heath.

This will also confirm that Ethyl Corporation will pick up the medical bill in connection with this program. I have already asked Socony Research to forward to me the Kettering Laboratories' invoice for analytical work recently performed on samples from Socony.

Best regards.

Cordially yours,

M. A. Remondino
