Dear Page:

With reference to your letter of February 21, we trust that by this time you have received the ten additional sets of tables which were forwarded to you.

In regard to the publication of the paper on "Asbestosis," you will be glad to know that we are processing this as quickly as possible and will forward it for your review before it is submitted for publication. It is my intent to publish it in the new journal sponsored by Phil ~~Crutcher~~. I believe in doing so it will reach the largest number of individuals who might be interested in the problems related to asbestosis.

I had planned to write the introduction in such a way that it would give full recognition to Leroy Gardner for having inaugurated the work. Upon discussing the matter with Doctor Lanre and with reference to your statement that he should write the introduction, it was his view that he does not wish to do so. I understand full well his feeling regarding it and will defer to his opinion in the matter.

With kindest regards,

Sincerely yours,

/s/ Art
Arthur J. Vorwald, M. D.
