Team-

Appreciate all the effort and i cant thank you enough.

We gave the ol' college try but the time frame worked against us. We are going to stand down on this.

Thanks again for everything.

Team-

First, appreciate both of you really bird dogging this thing.

We are running up against a deadline due to logistics, as we will have to move a panel to a different segment of the conference if this is a go.

Further, 1 thing I wanted to flag, since we have the Vice President I am not sure if once the building is locked down either the Secretary or the Administrator will be able to depart.

So, wanted to check in on likelihood of this going forward, and wanted to flag the movement issues that we may need to work out with the respective security details and the Secret Service.

Please let me know if it would be fair to set a deadline of 12NOON to make a decision. That allows our events team (cc'd) to proceed and lock all the aspects of the conference.

We would be beyond honored and thrilled to have them join us, and want to make sure we are all clear eyed about how this will turn out.

Thanks so much for everything, and let's circle up tomorrow.

Thanks all!

Hey Ryan

Wanted to connect you with Pedro Allende, Counsel to Secretary Acosta at Labor, and Kevin Curran the Executive Director at Maverick Pac.

Pedro has been working with Kevin on what they need for Sec. Acosta with regards to the potential event with Admin. Pruitt for Saturday evening at the Mav Pac conference.

If there is anything that you need or have questions about- thought it would be good to connect you with these two.

Thank you again, everyone, for all of your help in trying to make this panel happen!

Kathleen Rooney
