Greenville, South Carolina 29605

Dear Dr. Latham:

Dr. Ishak, of the Armed Forces Institute of Pathology, returned the slides on Mr. Michael Wayne Cox which I am returning to you. Dr. Ishak did not prepare a written report but told me, in a phone call, that he completely concurs with your diagnosis, i.e., hepatic angiosarcoma after reviewing the slides.

Thank you for your kindness in permitting this review.

Sincerely,

H. Northrop, M.D.
