NAVY DEPARTMENT

BUREAU OF SHIPS

WASHINGTON, D. C.

MSN/s11

MEMORANDUM

From: 648.
To: 336.
Subj: Compound, Vapor Seal, Fire Retardant, for Refrigeration Piping Insulation - Additional Sources of Supply.
Ref: (a) SUPSHIP Camden ltr. to W.Y.S. Corp. 639/A6-1; Serial 11756 of 30 Sept. 1943 (copies to BUSHIPS).
1. The information in reference (a) was obtained by the Piping Section from Chemical.
2. It is understood that others like Pecora, Ben Foster and Intercoastal have been interested in developing a vapor barrier compound equal to or better than the Armstrong #FR521 which so far is the only product approved for the subject purpose.
3. It is requested that other sources of supply of such vapor barrier be encouraged and developed.
4. This Section desires to be kept informed regularly as to progress made.
