In Reply To _____ Date 4/17/72 From T. Jenkins To C. A. Homan-BBQ
Subject #35 ASBESTOS COATED FELT

Please run the 35# asbestos coated felt in two-square rolls with 2" laying lines. The customer would also like a center line if this would not delay shipment, but is not really necessary.

TJ:lwc

4/18/72 - called Jenkins
2" line is a must - Bonded Base
Sheet line 2, 4, 17, 19, 32, & 36 should
be OK.

Subject #35 ASBESTOS COATED FELT

In order to supply FB with specifications for 35# Asbestos Coated Felt I will need to know the location of the laying lines and the number of squares/roll.

The specifications for the run made in 1970 called for laying lines the same as #33 Coated Felt, and two square rolls.

Please let me know the answer to the above as soon as possible.

*(Bonded Base Sheet lines (2" & 4" is a must)
Must be on 3" or bor*

Use Label similar to Asbestos Reinforced Flashing
