Mr. Elmer P. Wheeler
Monsanto Company
800 North Lindbergh Boulevard
St. Louis, Missouri 63166

Dear Elmer:

I am planning to put a precautionary label on our electric capacitors which are made at our Bloomington Plant and sold to electrical equipment manufacturers. Before doing so, I am interested in receiving a sample of the precautionary label that you use on your 55 gallon barrels of capacitor inerteen which is your yellow tinted trichlorodiphenyl meeting Westinghouse Purchase Department Specification 54201CF.

Any information you can let me have will be very greatly appreciated.

Very truly yours,

WESTINGHOUSE ELECTRIC CORPORATION

Wilbur
