THE TRANE COMPANY
LA CROSSE, WISCONSIN

Attached is this customer's letter of September 11th requesting information on our 752-67492 Dulux® Baking Enamel Green for the Wisconsin Department of Natural Resources as regards industrial wastes, toxic and hazardous substances that are discharged in their liquid effluent.

While we do not ship any 752-67492 directly to the LaCrosse plant, Trane advises that they do have some of this material shipped in from their Clarksville, Tennessee plant and the information requested is definitely required.

Could you please have the attached form completed and advise us accordingly.
