

April 17, 1931.

Mr. A. R. Newton, Jr.,
Sterling Oil Company,
Pahnton, Pa.

Dear Mr. Newton:

We acknowledge receipt of your letter of April 16th regarding the apprehension of your engine operator in connection with handling ETHYL fluid for knock rating tests. Rather than attempt to reply to this in detail, I think it is best that I refer it to Dr. Robert A. Kehoe, the Director of our Medical Department, who is located at the College of Medicine, University of Cincinnati, Eden & Bethesda Avenues, Cincinnati. I am doing so today with the request that he write you direct and you should hear from him in the course of the next few days.

Please do not hesitate to call on us at any time in connection with problems that might arise in the handling and distribution of our product.

Yours very truly,

C:G
