

1 don't sell them that way today.

2 Most of them are all bonded, and they come
3 in the box. And the metal and the lining is all
4 attached already.

5 So it is just a matter of us removing them
6 from the car, cleaning them up and reinstall the new
7 parts on the car, adjusting them up. And that is
8 about it.

9 MR. WILLIAMS: 62, line 12.

10 BY MR. WILLIAMS:

11 Q Would you ever wear a respirator or mask
12 when you were removing any of these brakes?

13 A Early years we never did, no. We just were
14 never warned there was any danger to it. Later on in
15 years we had our own respirators, yes.

16 BY MR. SMITH:

17 Q Approximately what year was that when you
18 first started wearing a respirator?

19 A We started wearing them late '70s through
20 the '80s.

21 Q How about the clutch facings, how often
