AMMCO®

BREATHING ASBESTOS DUST MAY CAUSE SERIOUS BODILY HARM.

CAUTION!

BRAKE LINING MATERIALS CONTAIN ASBESTOS FIBERS. AVOID BREATHING DUST BY PROPER USE OF THE AMMCO MODEL 8925 DUST COLLECTION SYSTEM.

MODEL 8925 DUST COLLECTION SYSTEM

For Models 880, 890, 8000 BRAKE SHOE GRINDERS

BRAKE DUST DISPOSAL BAG

DO NOT attempt to grind brake shoes without an AMMCO Disposal Bag properly installed in the Cannister. Always remove and seal AMMCO NO. 5399 Disposal Bag before the Cannister is half full. **CAUTION:** DO NOT PUNCTURE OR DAMAGE DISPOSAL BAG. Use only AMMCO NO. 5399 (package of 6) special heavy duty replacement Disposal Bags. DO NOT empty or reuse a Disposal Bag; dust created may cause serious bodily harm.

HOW TO REPLACE AMMCO NO. 5399 DISPOSAL BAGS

Unclamp the Cannister and lower it to the floor. Carefully gather and close the bag, twisting the top to prevent the escape of ASBESTOS DUST. Seal the bag with the ties provided. Carefully remove bag from Cannister and place in a sealable container for disposal. Install new Disposal Bag in Cannister, pressing it into the bottom and folding the excess over the top edge. Lift the Cannister into position against the Lid Seal, and clamp on.

THE MODEL 8925 DUST COLLECTION SYSTEM (USED IN CONJUNCTION WITH AMMCO BRAKE SHOE GRINDERS: MODELS 880, 890, 8000) MEETS OR EXCEEDS OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION STANDARDS FOR EXPOSURE TO ASBESTOS DUST WHEN PROPERLY INSTALLED AND MAINTAINED. TEST RESULTS BY AN INDEPENDENT TEST LABORATORY ARE AVAILABLE UPON REQUEST.
