Sharon,

Maybe you could follow up on
this. Because of the address it probably
is not our National Pigment &
Chemical Co. Weissman may have
been fed to us by Moody's.

Jack

Attention: Miss Maureen Callahan
Personnel Division

Dear Miss Callahan:

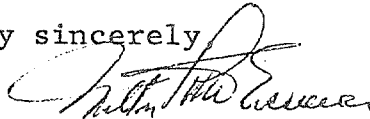

We represent H. B. Grossman who is in the business of tracing missing heirs. He has uncovered a long dormant asset belonging to a George M. Ferguson, who in 1936 gave his address as "c/o Standard Oil of New York, 30 Rockefeller Plaza, New York".

The only George M. Ferguson our client has located is one who was in the 1933 New York City Directory giving his occupation as general manager of National Pigment & Chemical Co. at 136 Liberty Street, New York.

We would appreciate anything you can tell us about the George M. Ferguson who was with your company which would help us determine whether he is the man we are looking for.

Your help is much appreciated.

Very sincerely

MILTON H. WEISSMAN
