Polysulfide Bulletin

Introduction
- Monsanto's background w/ Polysulfides
- Monsanto's range of products
- Combination should be great aid to formulators

Polysulfide Sealants –
- Brief summary of advantages of this type of sealant
- Importance of complete understanding of desired end properties and processing problems during the formulation
-

Purpose of the Bulletin (560/261)
- Introduce S-261, ~~S-312, S-313~~
  - Physical property data
  - Application test results
  - Processing test results

- Technical presentation of what we can do to solve application / processing problems through the use of other plasticizers
  - rate of cure
  - pot life
  - adhesion
  - hardness

DSW 586578

Style of Presentation / scope of Work
- Scope – limited due to priority of other projects
  - extensive data only on 261/560 blends
- Style – such that successive issues can be added for other products as time/money/warrant
  - Make data 1) easy to present by salesman
    2) readily usable by formulator.
