UNIT HEATERS, for high or low pressure steam or forced hot water systems

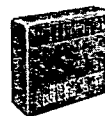

46S Four-Way Unit Heaters—Featuring air discharge in variable "clover leaf" pattern through four separately controlled outlets. Eight sizes available, ranging from 55,000 to 600,000 Btu/hr capacity.

46SD Vertical Unit Heater—Mounts within 2 inches of ceiling to save headroom. It may be supplied with standard or low temperature rise coil. Ten sizes are available from 30,000 to 576,000 Btu/hr capacity.

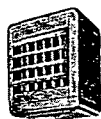

46U Horizontal Unit Heater—For heating small areas with a conventional horizontal discharge pattern. Has single row, low air resistance coil. Ten sizes available, from 13,400 to 200,000 Btu/hr capacity.

46AE Cabinet Unit Heaters—In eight cabinet styles, including free standing, variable semi-recessed and recessed models, for floor, wall, or ceiling installation. Capacities from 26,200 to 115,000 Btu/hr.

UNIT HEATERS, gas-fired models approved by A.G.A. for use with all gases

46T Gas-Fired Unit Heater—With aluminumized steel heat exchanger and attractive casing finished in baked enamel. Available in eight sizes ranging in capacity from 50,000 to 230,000 Btu/hr input.

46TD Gas-Fired Duct Furnace—Designed with flanged openings to facilitate duct connection. Eight sizes in capacity from 50,000 to 230,000 Btu/hr input. Blowers are available; 600 to 2800 cfm ratings.

HEAT DIFFUSERS, for steam or hot water or Direct-Fired using gas or oil

46PQRV Heat Diffusers—For large area heating and ventilating with hot water or steam. Available as floor mounted or suspended unit. Choice of coils and fans for capacities from 47,000 to 2,990,000 Btu/hr.

46AF Heat Diffuser-Direct Fired—Self contained unit for oil, gas or combination fuel. A.G.A. and U.L. approved with stainless steel combustion chamber. Ten sizes: 300,000 to 2,000,000 Btu/hr output.

CLARAGE

CLARAGE FAN COMPANY
Kalamazoo, Mich.

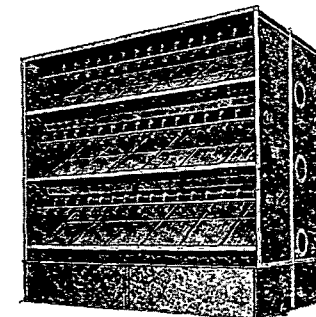

Air Handling and Conditioning Equipment
Application Engineering Offices in All Principal Cities

For nearly a half century Clarage has been a leading manufacturer of equipment and units for ventilating, exhausting, cooling, air cleaning, humidifying and complete conditioning. Clarage equipment is designed to meet all types of industrial, commercial and public building requirements. For other equipment in the complete Clarage line see "Air System Equipment—Fans and Blowers."

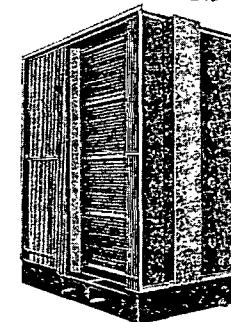

Clarage Multitherms cool and dehumidify in summer, heat and humidify in winter. For comfort applications and process conditioning. Vertical and horizontal types, 12 sizes, capacities 600 to 37,000 cfm. Sprayed Coil, Blow-Thru, and Hi-Static Multitherms also available.

Clarage Air Washers are built in both capillary and spray types. Sizes range from 2000 to 193,000 cfm. Used for air cleaning, humidifying and dehumidifying purposes. Special constructions can be furnished.

Clarage Unicoil Units are ideal as an integral part of a central station system for heating or cooling, or both; or for complete air conditioning in comfort applications. Wide size range.

We welcome your inquiry on any air handling or conditioning problem. Contact our nearest branch office, or write us at Kalamazoo, Michigan.
