- Available in three sizes.
- Ideal for waste such as stripped insulation, scraps, soiled coveralls, etc.

PLAINTIFF'S
EXHIBIT
AL-1130

Strong durable polyethylene bags are available in two hand held sizes of 30" x 48" and 30" x 37" and in a 55 gallon drum liner size of 24" x 14" x 65" in 0.004 inch thickness. These bags were conceived as a workable solution to labeling asbestos waste according to OSHA 1910.1001 (formerly .93a) and also aid in compliance with EPA Emission Standards 61.22. Special sizes and thicknesses quoted on request.

A SPECIALTY LINE OF POLYETHYLENE BAGS IDEAL FOR PROTECTING CLEANED AND SANITIZED RESPIRATORS

- Store respirators in sealed bags.
- Handy "write on" labels allow you to note special information directly on bags.
- Available in two convenient sizes to fit any respirator.
- Strong "Hi-impac" polyethylene, 0.002 inches thick.
- Recognize special use respirators at a glance.
- Costs only slightly more than plain bags (also available).
- Choice of colors and company emblem available with quantity purchases.

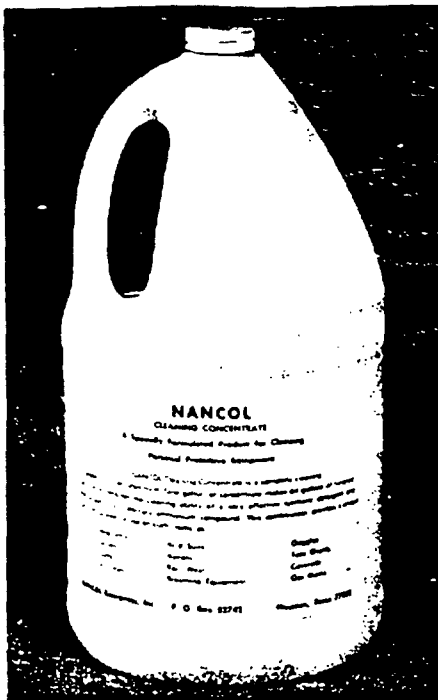

Durable "Hi-impac" extra duty bags come in two sizes, 8" x 6" x 20" and 6" x 4" x 15" for any size respirator. The label is printed with a special ink which may be written on with ink, ball point pen, felt tip marker or pencil. Bags are also available plain without labels.
