Subject: methylene chloride killed my friend.

Ms. Beck, Mr. Morris and Ms. Corado,

Can you imagine coming home to find your brother dead because he had been cleaning with a product that is extremely toxic and deadly, but sold over the counter without any warning. That's what happened to my good friend and it is not acceptable. Please stop lining your pockets to protect the interests of lobbyists and start protecting hard working Americans like you are supposed to.

My friend [Ex. 6 Personal Privacy (PP)] recently passed away after using a methylene chloride-based paint stripper. I'm very troubled by reports that the EPA has indefinitely postponed its ban on methylene chloride (EPA-HQ-OPPT-2016-0231-0001).

Protecting American consumers and workers from dangerous chemicals is at the core of your agency's mission. The longer these rules are delayed the more workers and consumers will be needlessly exposed to chemicals with serious, well-documented health risks.

Action on this toxic chemical is long overdue. I urge the EPA to reconsider its decision to delay the rule making process. You should finalize the proposed ban on methylene chloride as soon as possible.

Sincerely,
Logan Sease
Charleston, SC
