OBJECTIVE:

Promote Turbinol - for gas turbine engines.

RESULTS:

Solar has recently sold two Gas Turbine Engines for use with fire resistance fluids. These are Centar Engines which have already been designed using the Stauffer fluid as their standard. The reason the Stauffer product was used was due to our discontinuation of Turbinol 153. Mark Ashmore has requested that Monsanto make a formal presentation introducing their new Turbinol Fluids and supporting with it as much technical data as possible and if at all possible any reports from G. E. on their use of Turbinol.
