Insulation Removal (7/78 - 6/79)

D. L. Meade

E. C. Shelton

REFERENCE :

TO : L. C. Peeler

The General Maintenance Department needs the blanket permit for asbestos insulation removal at our Chocolate Bayou Plant renewed.

It is estimated that approximately 40 cubic yards monthly of asbestos insulation is removed from vessels and equipment.

The removal would be done by in-Plant, out of Plant contractors, and Monsanto personnel.

Thank you,

F. B. Burns
