The Office Safety Committee will make a short presentation during Safety and Property Protection's (S&PP) annual survey of the Texas City Plant.

We will meet with S&PP in the Cafeteria Conference Room at 8:00 AM on December 6. I will ask each Committee member to introduce themselve's and identify their job and department. Then I will go over our program for the coming year.

I realize we are a little late getting started which is entirely my fault, but we will be getting everything together later this month.
