Society of Automotive Engineering?

A I have received three that I can remember, yes.

Q Okay. Briefly, if you could tell the jury about those awards, please.

A In October of 1986 I received Outstanding Contribution to Brake Industry Award which was the first brake-related award that they gave. I was very proud to get that.

In October of '92 I received Recognition Award for work on the Brake Colloquium which is an annual meeting on brakes and my work on vehicle safety, and I received the Speaker's Award I believe in '91 as a result of some of my paper presentations.

Q Okay. So I gather from your last comment, then, you have published articles or studies?

A I have a number of publications, and I have made a number of presentations all over the world, yes.

Q And do any of the publications of your articles or studies specifically involve the use of
