REPLY TO
ATTN OF: RDV

SUBJECT: Herbicide Orange Soil Samples from Eglin AFB, Florida

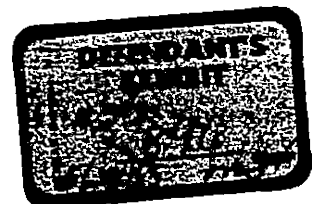

Mr. Roy Noble
TO: Monsanto Research Corporation
1515 Nicholas Road
Dayton, Ohio 45418

1. We have shipped to you, under separate cover, eight soil samples that were collected at Eglin AFB for use in your research. A complete list of samples collected, as well as a sketch showing sampling locations is attached.
2. We request that all data resulting from analyses of these samples be provided to AFESC/RDV for review prior to use outside Air Force channels. Any planned public release of this data that indicates that it came from an Air Force installation must also be coordinated with the appropriate Air Force Public Affairs and Legal offices prior to actual data release.
3. Any questions you have concerning this matter should be directed to LLt John T. Woosley, (904) 283-4628.

JIMMY N. FULFORD, LtCol, USAF
Chief, Environics Division
