Banker Mill Company
660 Market Street
San Francisco 4, Calif.

Dear Mr. Elmore:

At the request of Mr. G. H. Adams, Director of Technical Service and Development, we are sending by express 100 pounds (2 - 50# bags) of Grade 10-2 to your warehouse at 1336 16th St., Oakland, California, marked for your attention. This 100 pounds represents lot No. 3029, our assay of which is as follows:

As	79.72
Pb	0.15
Zn	79.2
Acetic Acid Sol.	79.37
Insoluble	0.006
Fe	0.019
Mn	0.0022

This material has been tested in rubber and found satisfactory. Analysis of the lot selected is representative of average production.

If there is any further information which you would like to have, either Mr. Adams or the writer will be glad to furnish any additional data you may require.

Yours very truly,

cc: Mr. S.B. Coolidge, Jr.
Mr. G. H. Adams
