New York, New York 10017

Gentlemen:

I have received your book, "Facts about Lead and Pediatrics" which I found most interesting. I am preparing a magazine article on Lead Poisoning in Children and I would like your permission to quote parts from your book.

Also, I have some chips of paint which I would like to have tested to see if they contain lead. Would you be in a position to do this? If not, could you refer me to the proper agency that could do this?

Thank you for your time and consideration.

Cordially,
Nancy F. Buck
