REFERENCE

TO

Visiting Safety Contactors

Some of our Safety Topic Experts were not contacted during September and October for a number of good reasons. Some were sick, on vacation, or were otherwise unavailable, but they still want to be contacted. We would like for you to try to make contact as soon as possible with the person whose card is enclosed.

Remember to ask:

1. What is the job?
2. What are the hazards?
3. What must be done to do the job safely?

Make every effort during the visit to emphasize the importance of identifying and eliminating unsafe acts and conditions which could lead to injury.

Thank you for your continued cooperation in making this program a success.
