Dr. Robert A. Kehoe, Director
Kettering Laboratory of Applied Physiology
University of Cincinnati
College of Medicine
Eden Avenue
Cincinnati 19, Ohio

Dear Dr. Kehoe:

I wish to tell you how much I enjoyed our visit of 27 May and wish to confirm our discussion.

I am attaching, for your information, a copy of our general contract requirements for the preparation and submission of proposals. I believe this may be of some help and if there are any further questions, please contact me.

With regard to the program under discussion, it was agreed that you would consider a program for inhalation tests of lead sulphide and lead silicate. You would also consider ingestion evaluation of lead chromate. However, if you felt that there was safety in inhalation tests with lead chromate this would also be included in the program.

We shall look forward to further word from you and, in the meantime, please accept my kindest personal regards.

Very sincerely yours,
