Dr. E. W. Grady
304 Church Street
LaGrange, Georgia

Dear Dr. Grady:

I should like to express my appreciation to you for the services and the interest you have taken over the past several years in our Asbeston Plant X-ray program and the reading and advice on the films. Your reading of these films proved of great value to us and has been most satisfactory. We had been told it was difficult to find an expert south of Philadelphia, but your services have been extremely satisfactory, and your readings have checked remarkably close with other authorities in this field.

As Messrs. Port and Alexander explained to you this morning, our change in program, enlarging the scope of our X-ray program and tying it in with physical examinations has been under consideration for some time, and we have felt it necessary to make this change so that all of the work could be done by one man.

Again, I should like to express my personal appreciation for the work you have done for us, and with the hope that I shall see you from time to time in the future, I am

Sincerely,

A. C. Link

Dr. John G. Wells
41 Jefferson Street
Newnan, Georgia

Dear Dr. Wells:

We were most happy to receive your letter of December 17 outlining a medical program for our Asbeston Plant, and Mr. Alexander has confirmed an appointment with you here for Thursday, January 10, at 2:00 P.M.

We are looking forward with a great deal of interest to your initiation of this program and feel that our employees and our Company will benefit from your work and interest.

Yours very truly,

A. C. Link
Manager
