Mr. Newton E. Whitman
Industrial Health Chemist
Bethlehem Steel Corporation
Bethlehem, Pennsylvania 18016

Dear Mr. Whitman:

Your request for information on the composition of "Dulux" 93-082 was sent to me for reply.

"Dulux" 93-082 contains the following materials:

Composition	Wt. %
pigments	
titanium dioxide	1
lead chromate/lead molybdate	20
resins	
alkyd resins	29
melamine-formaldehyde resin	1
driers	1
solvents	
aliphatic hydrocarbons	29
aromatic hydrocarbons (benzene free)	19
	100

The composition contains 22.4% lead based on the weight percent of solids. I trust this information will be adequate for your purposes.

It is understood that this compositional information is given in confidence and will be used only for industrial hygiene purposes.

Very truly yours,

William W. Miller
Toxicity Coordinator
