Please refer to the letter of May 5, 1948, from your Mr. W. F. Ryan which transmitted an estimate of \$6,700, exclusive of the services of Constructing Engineers, for work to rearrange the flow of vapors between the reactors and the residual towers and the purchase and installation of a new separator drum, C-D-37, all of which was verbally authorized by our Mr. H. H. Wall, April 9, 1948.

We wish to approve your adding this estimate to the definitive estimate.

Very truly yours,
