Chemical Operator

Contention: Agg Aca?

If we win:
- NO heart condition
- cause of TT is the heart NOT lungs
- Ct could file PTD (or)
- life expectancy 13 yrs.
- reduced life exp due to medical condition

If we lose:
- heart condition allowed
- continued payment of TT ↓ likely PTD
- PTD would be reduced if Ct dies prior to life exp
- but wife would file for death benefits
- her age? life exp?

SB 198,068

Other factors to consider
- continued payment of TT until trial 6-9 MO
- if we win C86 with BWC or permanency issue 3-6 MO
- trial defense costs

Settlement value 40-45K approx 3 yrs TT.

- Reviewed & discussed w/ DG & OK 35K.
- Relayed info to Yolanda Voup.
