R. A. Keohe, M.D.
Director of Lettering Laboratory
College of Medicine
University of Cincinnati
Cincinnati 19, Ohio

Dear Dr. Keohe:

We have several men in our operations who are exposed to mercury compounds and Tetraethyl Lead. We would like to have examinations made to see if there has been any adsorption of these compounds. We would like to set this up on a routine basis.

We would like to have your recommendations for a procedure to follow in order to have these examinations made on a routine basis.

Mr. Cholak has seen the operations and can fill you in as to the details.

Very truly yours,

ROBERTS CHEMICALS, INC.

ELMER A. FIKE
President
