Rexdale, Ontario M9W 4V9
Canada

Dear Howard:

We have just received your check in amount of US\$600.00. There was no correspondence or application with the check.

My problem is this. Last Fall when I was advised that Automatic Metal Stamping was in receivership, this information was passed on to the Board of Directors. When we were advised that unsecured creditors would not be paid, the Board terminated the membership of the old Automatic Metal Stamping Co. There are two things I can do:

- (1) Apply the \$600 to the old receivable, in which case you would be paid through June 30, 1988. To do this I have to have the Board vote to reinstate the Membership.

or

- (2) Have the new corporation (Automatic Metal Stamping Co. 1987 Inc.) apply for new membership. As this is a new company that would be the simplest. I would need a completed application form. This is also the best for Automatic Metal Stamping as your Membership would most likely be for one year to June 30, 1989.

I've enclosed blank application forms (2) as well as a copy of your original 1980 application for the old company. Would you either (1) advise if you wish this \$600 applied to the old membership account, or (2) complete and send us an application for Licensee Membership.

I'll repeat that if we reinstate the old membership you will only be paid through June 30, 1988.

Sincerely,

FRICITION MATERIALS STANDARDS INSTITUTE

E. W. Drislane

Dear Sirs:

Re: Automatic Metal Stamping Company Inc., in Receivership

We refer to your letter of December 23, 1987.

On October 6, 1987, Dunwoody Limited was appointed receiver and manager of the above company pursuant to a security agreement.

Realization from the sale of the company's assets will not be sufficient to fully satisfy the indebtedness to the secured creditors and statutory lien claimants. Accordingly there are no funds available for distribution to the unsecured creditors.

Yours very truly,
DUNWOODY LIMITED, Receiver & Manager

Subject: Automatic Metal Stamping Co. - 1987, Inc.

Dear Mr. Graves:

This is with reference to our recent phone conversation as regards receivables from Automatic Metal Stamping Co., whose assets your company has purchased. I have written to Dunwoody Ltd., the receivers, concerning the balances due from Automatic Metal Stamping Co. Ltd.

This concerns Licensee Membership for Automatic Metal Stamping Co. - 1987, Inc. As I understand it, this new corporation is manufacturing automotive brake shoes. As such a manufacturer, they would be eligible for Licensee Membership in the Institute. The eligibility requirements are detailed in ARTICLE III, Section 2 of our Constitution and By-Laws. I've enclosed the following:

List of Membership (Active Members and Licensees)
Constitution and By-Laws
Application for Licensee Membership (2 copies)
EXHIBIT C - Services to Licensees

I believe the "Services to Licensees" write-up reasonably summarizes what is available to Licensees. As I understand that both Mr. Howard Sokoloff and Mr. Ben Uttangi are with the new corporation, they are aware of the services for Licensee Members. As noted, these are permission for use of the Institute's copyrights and trademarks in marketing brake shoes, regular technical bulletins on new brake shoe releases, access to Institute prints and catalogs, etc.

The current annual Licensee Membership Fee is US\$600.00. The fee is for Licensee Membership for our fiscal year which runs July 1 to June 30. Our current fiscal year ends on June 30, 1988. As I indicated, we do not prorate the \$600 Membership Fee. However, if we receive any payment from the receivers on the fee billing which we billed Automatic Metal Stamping Co. for on July 1, 1987, we would credit it to the new company balance.

FMSI 11960

If your company were to apply for Licensee Membership, it should complete the enclosed application form and forward it along with your check in the amount of US\$600 to the Institute. If accepted, that payment would cover Licensee Membership through June 30, 1988. If not accepted, your \$600 would be returned. For assistance in preparing the application, I have enclosed a copy of the application received from Automatic Metal Stamping in 1980.

Sincerely,

FRICITION MATERIALS STANDARDS INSTITUTE

Attention: Mr. Vince Siciliano

Subject: Automatic Metal Stamping Co. Ltd. - Receivership

Gentlemen:

We have just learned that Automatic Metal Stamping Co. Ltd. of 1000 Martin Grove Road, Rexdale, Ontario has filed for protection under the bankruptcy laws (U.S. parlance), and that its assets have been sold to another company. We have been advised that Dunwoody Ltd. is acting as receiver for Automatic Metal Stamping Co. Ltd. creditors.

The Friction Materials Standards Institute is a creditor of the Automatic Metal Stamping Co. Ltd., and would like to go on record with its unsecured receivables. These are evidenced by the following invoices, copies enclosed:

<u>Invoice No.</u>	<u>AMS P. O.</u>	<u>Date</u>	<u>For</u>	<u>Amount</u>
5182	1133	05-26-87	Drawings	US\$44.00
5223	-	07-01-87	Membership	600.00
5278	1318	07-28-87	Catalogs	11.78
Total:				US\$655.78

We have also enclosed a copy of the current accounts receivable cards for Automatic Metal Stamping Co. Ltd. which summarize the unpaid invoices.

Would you kindly include these Institute receivables from Automatic Metal Stamping Co. Ltd. with the other unsecured creditor amounts.

Sincerely,

FRICION MATERIALS STANDARDS INSTITUTE

PURCHASING AGENT

FMSI 11972

CONDITIONS

This order together with the acceptance by Seller and all documents, drawings and specifications referred to herein, shall constitute the contract between Seller and Purchaser and no qualification of Seller's acceptance or oral statement of any person whomsoever shall be binding upon the parties unless stipulated and agreed to by them in writing.

CANCELLATION FOR SELLER'S DEFAULT

Should the Seller fail (1) to effect delivery on or before the specified delivery date(s) (2) to deliver goods in all respects conforming with the requirements (3) in the due performance of each and all of the terms and conditions of this order the Purchaser may cancel this order in whole or in part with no liability whatsoever on its part. Without prejudice to the foregoing, the Seller agrees to report promptly to the Purchaser any act or specified delays in shipment of the goods covered by this order.

INSPECTION

The goods are subject to this inspection and approval by or on behalf of Purchaser, either before or after delivery to Purchaser, and if rejected may be held at Seller's risk or expense or returned at Seller's expense. Purchaser shall be the final judge of the goods and shall be entitled at all times to have access to the plant and premises of Seller. Purchaser reserves the right to retain any portion or all of any shipment not strictly in accordance with the specifications and in such case, will pay a reasonable price therefore, which retention shall not preclude the Purchaser from rejecting the remainder of the shipment.

APPLICATION OF ORDER

If goods furnished on this order are covered by special contract, this order is given subject to the terms of such contract, if for goods not under special contract and no specific delivery dates are specified, then the goods are to be supplied within a reasonable time in accordance with industry standards after the order is given; and the seller of any article to be used for a particular purpose undertakes, without exception, that is reasonably fit for such purpose.

CHANGES IN ORDER

Purchaser reserves the right to (1) make changes in the order (2) cancel all or any part of the order at any time, by notice in writing. Purchaser shall not be responsible for cost incurred by the Seller in connection with this order, after the date of receipt of the change or cancellation notice. Unless the Seller presents to the Purchaser an itemized statement of claim against the Purchaser within twenty (20) days after the receipt of notice of such change of cancellation, the Seller shall be conclusively deemed to have waived all claims against the Purchaser with respect thereto.

PACKING AND CARTAGE

No charges for packing, boxing, crating or cartage will be allowed unless specifically authorized on the face of this purchase order. Goods must be packed, boxed or crated by shippers so as to obtain the lowest freight rates failing which the purchaser reserves the right not to pay for such charges.

COUNT

Purchaser's count will be accepted as final and conclusive on all shipments not accompanied by a packing ticket in which even the calculation on the ticket will govern.

OWNERSHIP

Unless otherwise provided herein, ownership of the goods shall pass to Purchaser when the goods are delivered into the hands of Purchaser only or its employees, but not before; the goods remain at the risk of Seller until such delivery, including any risk of deterioration of the goods.

WORKMEN'S COMPENSATION

It is understood that you are covered for and assume all Workmen's Compensation risks and will furnish Purchaser with a certificate of good standing from the relevant Workmen's Compensation Board; Seller assumes liability for any damage to property or injury to persons caused by its servants, agents or workmen and shall indemnify and hold harmless the purchaser for any such damage or injury caused.

ASSIGNMENT

This order shall not be assigned or transferred without prior written consent of Purchaser.

WARRANTY

Seller expressly warrants and agrees that there has been no violation of any trademark or patent rights, copyright, or of any law, rule or regulation of the Federal or any provincial government or any of their respective agencies or political subdivisions, in the manufacture, production, sale and/or shipment of the goods hereunder; and Seller will indemnify and hold Purchaser harmless from any and all costs, damages or expenses (including counsel fees, and fees of expert witnesses) which may be incurred by Purchaser by reason of any claim or suit arising out of the infringement of any trademark, patent, right, copyright and or by reason of any claim or suit for damages brought against Purchaser, based upon any injuries or damage resulting or claimed to have resulted from any alleged infringement or defect in such goods or ingredients or part thereof.

WAIVER

Purchaser shall not be deemed to have waived any of its rights hereunder unless such waiver is in writing and signed by a duly authorized representative of Purchaser. No such waiver, unless expressly stated therein, shall be effective as to any delivery or other transaction which occurs subsequent to the date of the waiver, nor as to any continuance of a default after such date.

LAW APPLICABLE

Purchaser recognizes that Seller may, for operating convenience, wish to use its own form of sale note in acknowledgement of this order, or otherwise acknowledge it than by simple acceptance. It is understood and agreed that any provision in the form of acceptance used which modifies, conflicts with or contradicts any provision of this order, shall be deemed to be waived, and that this order and such acceptance constitute the whole contract between the parties. The laws of the Province of Ontario shall govern the terms of any contract resulting herefrom and any of the terms hereof shall be interpreted thereby.

"The Purchaser and Seller agree that this document be written in English only. L'acheteur et le vendeur acceptant que ce document soit rédigé en anglais seulement."

Dear Mr. Uttangi:

This is with reference to your request on May 22 for certain steel disc brake shoe drawings with drill patterns.

This shipment of prints was made under separate mailing today. I've enclosed a copy of the packing list and a review of each of the steel shoe drawings for which you requested drilled patterns. In many cases we did not have drilled shoe drawings for the numbers requested. We have attempted to give you the drilling information, and refer you to the listing of the nineteen (19) numbers you requested entitled "Automatic Metal Stamping Request for drilled disc brake plates."

In several cases, the original equipment steel was undrilled for either bonding or integral molding. We have suggested drill patterns from similar parts. In certain cases, the steel drawings we were provided were like silhouettes and did not have details. In those cases we have provide lining drawings to show the drill pattern. We have made individual comments on the drawings provided for each number.

If you wish additional drawings, please specifically request them by FMSI Number.

Sincerely,

Dear Mr. Sokoloff:

We recently received your check No. 2687 in amount of US\$600.00 in payment of the annual Membership Fee for the 1984-85 fiscal year. For some reason, this check did not clear. It has been marked "Not Payable in any FRD." This apparently means not payable in a Federal Reserve District. I don't understand why it was returned but would appreciate it if you could issue us a replacement check for \$600 payable in United States funds.

We will handle the check differently sending it out for collection. Your check No. 2687 is returned with the endorsements cancelled.

Thank you.

Sincerely,

Mr. Dave Moody
Automatic Metal Stamping Co.
237 Doney Crescent
Concord, Ontario L4K 1B1
Canada

Dear Dave:

This is with reference to our discussion on FMSI 263 Brake Shoe
(11 x 2-1/4) for Ford Motor Company.

You referred to the 263 and advised that the hole at the top (cylinder
end) of the shoe web was .347/.344 diameter, and not .382/.377 as shown
for our 263.

The shoe number you gave was Ford's D9AC 2220 BA. That shoe is our
FMSI 482. We have been showing that 482 shoe for certain Ford-Lincoln-
Mercury models since 1979. However, the 263 shoe, as best we can de-
termine, is still used on certain Ford Truck models--F100, F150. As
you indicate these are two different shoes, and the one with the
.347/.344 is our 482. I've enclosed a copy of our 482 and you will
note at the bottom margin of the print the Ford Part Number D9AC 2220 BA.

I trust this answers your questions on this shoe.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

March 14, 1983

Mr. Bob Anderson
Automatic Metal Stamping Co.
237 Doney Crescent
Concord, Ontario L4K 1B1
Canada

Dear Bob:

This is to reply to your letter of March 4, 1983 on the 100 copies of the 1983 Supplement. We will enter your order for these catalogs to be mailed to to your Company. These will come from the U.S.

As regards the Canadian Membership, Dan Easveld is correct. The Canadian Institute is completely separate from the U.S. Institute. When Doug Ogilvie was at Certified he paid for the two separate memberships and ordered through the Canadian Institute. They of course placed their orders on us and they distributed the catalogs in Canada to their members. Membership in our Institute does not provide membership in the Canadian Institute.

As we are completely separate, Dan is correct. Whether Automatic Metal Stamping would be eligible for Canadian Membership would be up to FMSI of Canada.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

Dear Bob:

This is in reply to your letter of January 28 on drum brake shoes, asking if you could get the web and table drawings separately, in addition to the shoe assembly.

Bob, we don't have web and table drawings.. The shoes that we get for most North American cars are from Bendix, Kelsey-Hayes, Delco and the like. They intentionally remove all details that might help another manufacturer manufacture that shoe. Most illustrations come in with dimensions blacked out, or as separate drawings with details not shown. When the shoe catalogs were started in the 1950's--before my time with the Institute--all shoe drawings were artists' silhouettes prepared by someone at Bendix. In a few cases we may receive shoe drawings with web dimensions detailed and when we do that becomes our drawing. However, nine out of ten do not have details, and we do not have any separate web and table drawings.

Imported car shoe illustrations are normally made up from sample shoes that we examine. They have no details.

I'm sorry that I can't help on this one, but if you have particular shoes in mind, I could see what I do have. .

Sincerely,

Dear Howard:

I'm following up on payment of the annual fee billing for the Licensee Membership in the Institute.

I've enclosed copies of the Invoice and Statement of Account for reference. This was our Invoice No. 3710 of July 1, 1982. The "Please see notice enclosed" on the Invoice referred to the increase in the annual fee from \$550 to \$600, effective July 1, 1982.

As this has not been paid we're asking if you will check this out and make payment. If you have sent a check, would you kindly send a replacement check. Thank you.

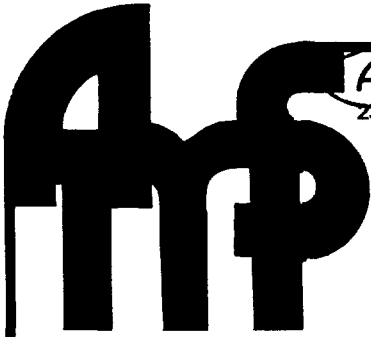

Sincerely,

Dear Bob:

Per your letter of November 25, I have added your name to the mailing list for Licensee Members. You will be receiving the technical bulletins which are sent also to Mr. Sokoloff.

There is no problem with adding you to the mailing list for the bulletins. However, the prints are sent to one person only at each Member address. I will continue to send the prints to Mr. Sokoloff, but when you receive your bulletin, that will mean that Mr. Sokoloff has received his. As the prints are 8-1/2 x 11, they are simple to copy.

I have enclosed another copy of SHOE BULLETIN NO. 109 as well as one copy of each print which was sent with that bulletin.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

Mr. H. J. Sokoloff
Automatic Metal Stamping Company Inc.
237 Doney Crescent
Concord, Ontario L4K 1B1
Canada

Dear Mr. Sokoloff:

This is to advise that the Board of Directors has accepted your application for Licensee Membership in the Institute.

I am enclosing a copy of the Institute's "1980 Brake Shoe Identification Catalog" along with a copy of Shoe Bulletin #96, (the only Shoe Bulletin issued since publication of the 1980 catalog). You, as a Licensee, are entitled to all information as regards brake shoes and the right to use the copyrighted FMSI shoe numbers and trademarks in marketing your products throughout the world. All shoe prints that we have on file are available to you, but I wish to point out that many shoe illustrations are silhouette drawings only. In some cases the illustrations were made up from sample drawings or from the actual shoe itself and many of these illustrations do not have manufacturing details. This is especially true for most of our drum brake shoes. Where we have factory drum brake shoe drawings, in some cases details on the web have been removed by the brake shoe manufacturer.

We will put your name on our mailing list for technical bulletins and catalog information and items of that nature. If there is anyone else at Automatic Metal Stamping who should be on our mailing list, please let me know.

The Institute's fiscal year runs from July 1 through June 30 so that your prepayment of the fee will be applied through June 30, 1981. If there is any information you need, please let me know.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

Subject: Licensee Membership in the Institute

Dear Mr. Sokoloff:

I have had recent correspondence with Mr. Bob Anderson of Certified Brakes concerning your company's possible Licensee Membership in the Institute. He indicated that Automatic Metal Stamping Company, Inc. was manufacturing brake shoe cores.

As a manufacturer of brake shoes, Automatic Metal Stamping would be eligible for Licensee Membership. I've enclosed some literature on the Institute which includes the following:

1 copy	-	Constitution and By-Laws
2 copies	-	Application for Licensee Membership
1 copy	-	Booklet - Friction Materials Standards Institute

We provide Licensees with up-to-date information on new brake shoes (which includes disc brake plates). This is done through technical bulletins. We publish Catalogs which Members and Licensees can purchase for use by their customers. We assign standard FMSI numbers to lining and shoes. Bulletins and catalogs on new brake shoes and on vehicle application for brake shoes are available to Licensees.

Most brake shoe suppliers use our copyrighted numbering system and the FMS® and FMSI® Numbers to identify parts on price lists, catalogs, sales literature, etc. The system was set-up to help suppliers, rebuilders, and installers in the aftermarket. As indicated the numbers and system are copyrighted and FMS and FMSI are registered trademarks of the Friction Materials Standards Institute, Licensees are given permission to use FMSI numbers on their products, sales literature, etc.

The current annual fee for a Licensee is \$550. While we have maintained a stable dues level for several years, there is always the possibility of increases in the future.

FMSI 11995

Mr. H. J. Sokoloff
Automatic Metal Stamping Co., Inc. -2-

July 22, 1980

If you wish to apply for Licensee Membership, please have one application copy completed and sent to the Institute with a check for U.S. \$550. This \$550 would be applied to the first year's dues. If, for some reason, the application were not accepted, the \$550 would be refunded. Our fiscal year runs from July 1 to June 30. The Annual Fee is applied to the full Fiscal Year--we do not prorate. If you were to apply at this time, I would have Membership start effective July 1, 1980.

If you have any questions on this, please let me know.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

CERTIFIED BRAKES.
A LEAR SIEGLER COMPANY

July 17, 1980.

Friction Materials Standards Institute, Inc.,
Bergen Mall Office Center,
E. 210 Route 4,
Paramus, N.J. 07652,
U. S. A.

Attention: Mr. E. W. Drislane,
Executive Director.

Dear Ed,

Further to our telephone conversation of July 16th regarding
your letter of July 2nd outlining the qualifications to become
an F.M.S.I. member for Qualified Automotive Replacement.

As mentioned in our telephone conversation, I was in error when
requesting membership application for Qualified. It is Mr.
Sokoloff's other son that is requiring membership in F.M.S.I. -
the name and address of the company is as follows:-

Automatic Metal Stamping Company Inc.,
237 Doney Crescent,
Concord,
Ontario L4K 1B1

Howard Jay Sokoloff, V.P. & General Manager.

This company is at present manufacturing brake shoe cores,
and is a "manufacturer" I believe in the words of the F.M.S.I.
by-laws.

I trust you can look after this request for Mr. Sokoloff and his
son Howard.

Best regards.

Yours very truly,
CERTIFIED BRAKES - A LEAR SIEGLER COMPANY,

Bob Anderson,
Manager - Special Marketing.

8-13-80

APPLICATION FOR MEMBERSHIP

TO THE BOARD OF DIRECTORS OF
FRICTION MATERIALS STANDARDS INSTITUTE, INC.

Gentlemen:

The undersigned, a manufacturer of brake shoes, hereby applies for membership in the FRICTION MATERIALS STANDARDS INSTITUTE, INC., as a Licensee and certifies to the following:

1. Name of applicant: Automatic Metal Stamping Company Inc.
2. Date and place of incorporation: 29/10/79 237 Doney Cresc.
Concord, Ontario L4K 1B1
3. Principal office: Same as above.
4. Length of time manufacturing brake shoes: Five months
5. Do you manufacture brake shoes from the basic materials: Yes
6. Approximate annual brake shoe manufacturing capacity of plant: _____
Eight million
7. State approximate number of square feet devoted to brake shoe manufacturing: _____
26,000 square feet
8. State approximate number of unlined shoes manufactured and sold as unlined brake shoes: F.M.S. 487
9. How many different brake shoe set numbers do you manufacture other than shoes which you recondition or remanufacture: F.M.S. 487 Future numbers -
472, 245, 474
10. Is the distribution of your product national, international or local or in how many states: National (US and Canada)
11. Do you list the brake shoes you manufacture in catalogs or in some other form.
If so, please attach a copy of same: Not yet
12. Please furnish three credit references: _____
Stelco of Canada
Mac Steel
Norbel Steel
13. Is plant owned by applicant or leased: Leased five years plus two year option

The undersigned hereby acknowledges receipt of a copy of the Constitution and By-Laws of the Institute and agrees that, if elected to membership, it will accept and be bound by the said Constitution and By-Laws, together with any amendments that may, from time to time, be made thereto.
