Good afternoon,

Thank you for reaching out! Unfortunately the Administrator is out of town for the next several days and unable to meet. Hope you have safe travels!

Best,

Sydney

**Subject:** Follow-up to EPA Administrator E. Scott Pruitt's 04/26/17 response

**Importance:** High

Mr. Pruitt,

I am in DC and would like to follow-up with you about my 04/25/17 letter to President Trump re: CLEAN COAL/CLEAN FOSSIL and yourself regarding our revolutionary technology which eliminates harmful emissions from coal while restoring its price competitiveness to natural gas without subsidy.

I believe these developments should interest you above all people given your current course at EPA.

I'll be here until Friday. As of last Friday, NASA is currently attempting to adopt our Revolutionary Solar Hydrogen/Oxygen Technology into their Advanced Concepts Division for their Lunar Landing project...a critical step toward Deep Space Exploration... which will continue to languish without our technology.

WE are not a gimmick and I would like to commercialize in AMERICA, for AMERICA FIRST by saving the US Coal Industry...as the BOSS has encouraged!

You have my word as a Former Marine Officer and combat veteran this is not a waste of your time; and requires your immediate attention.

Respectfully,

Patrick Maloy

**Subject:** Your Message to EPA Administrator E. Scott Pruitt

Thank you for your email message.

Promoting and protecting a strong and healthy environment is among the lifeblood priorities for the government. The U.S. Environmental Protection Agency is vital to that mission. I am proud to lead this agency, and I seek to listen and learn as we address the issues we face as a nation.

I believe we can grow our economy and harvest the resources we are blessed with while also being good stewards of the air, land and water by which we have been favored.

Together with the dedicated public servants at the EPA and our state partners across this great country, we can and will achieve clean air and water and strong economic growth and job creation. I hope you will visit [www.epa.gov](http://www.epa.gov) to learn more about our work and to follow our progress.

My staff will follow up in response to your email as necessary and appropriate.

Respectfully yours,

E. Scott Pruitt

EPA Administrator
