VISTA

Mr. Myles Woitesek, Jr.
Lawter International, Inc.
890 Skokie Blvd.
Northbrook, IL 60062

Dear Mr. Woitesek:

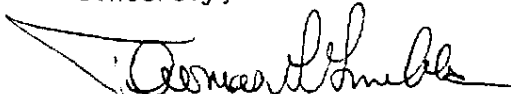

Per your request, this letter is to document Vista's hazard determination regarding carcinogenic labeling of Vista DPA Specialty Alkylate and C₁₂I₆ and C₁₄I₆ Normal Paraffins.

Our hazard assessment is that these products do not need a carcinogenic warning statement under the requirements of the OSHA Hazard Communication Standard.

This assessment is based on the analytical data we have available and the manufacturing process used to produce these products. Analytical data indicates less than 0.1% of any specific constituent considered to be carcinogenic under the OSHA standard.

Please contact me if you have questions on the above.

Sincerely,

Thomas G. Grumbles, CIH
Environmental Quality Manager
