His Comp
Ry

Sales have agreed (Mr. Paul Benignus) to use of the same caution statement for all AROCLOR, PYRANOL, and INERTEN containers. This statement is as follows:

CAUTION! CONTAINS CHLORINATED HYDROCARBONS

Avoid prolonged breathing of vapor or mists.

Avoid contact with eyes or prolonged contact with skin.

If skin contact occurs, remove by washing with soap and water. Following eye contact flush with water.

If clothing becomes soaked with fluid, launder before wearing again.

Where product labels are used this complete statement may be on the label. Current plant practice is to stencil the drums and in these cases standard 3" x 5" white pressure sensitive labels with black printing are available.

Please initiate this procedure immediately.
