

AIR

1. incinerator scrubber - primary and back-up
2. no current air permit
3. recent revisions to the national emissions standard for PVC and leak detection - plant does not meet the criteria at present?

WATER

1. No current NPDES permit for plant. *Large* Plant cannot meet new spec for Residual Vinyl Chloride Monomer (RVCM) as an effluent emission.
2. Fields Brook which flows through the property is on the National Priorities List as a Superfund site.
3. Lead Testing
4. Flow Monitor } *operations*

SOLID WASTE

1. Part of *the Ashtabula* property was leased to Olin Corporation. *Olin* In the 1970's *operations* which conducted ~~manufacturing~~ manufacturing on this site. Olin ceased operation, dismantled the plant and performed a clean-up of the site in *Olin*. During the summer of 1984, an ex-employee of the clean-up contractor made several allegations that the clean-up of the site by Olin was not proper. These allegations were reported to the FBI and US EPA. In the Fall of 1984 US EPA did *ground* sampling on the site. The matter is currently in *being considered by* front of a Federal Grand Jury in Cleveland.

OSHA / ?

* Any other last minute problems.

* Need copies of financial documents!!
