OA 30 2(a) attach to Phils affidavit.

November 9, 1976

Mr. Philip Murray
Cornell-Dubilier Electronics
1605 Rodney French Boulevard
New Bedford, Massachusetts 02701

Dear Phil:

Counsel for the EPA has informed me that he wishes to ask you a few questions concerning your affidavit in the PCB toxic effluent proceeding. You are scheduled to testify as our first witness in the proceeding on Monday morning, November 15. Let me suggest that you plan to arrive here in Washington the preceding evening so that we can meet and discuss your testimony. Peter Nickles who is handling the case for our firm will be presenting your testimony, and would like the opportunity to meet with you and outline what should happen the following day.

I was told that the EPA lawyer will ask you questions principally on two matters. First, what was the basis for your statement in paragraph 4 of your affidavit that a treatment system would cost approximately $475,000? We have discussed this, and I know that you received two estimates on which you based this testimony. It would be useful for you to have those estimates with you if the matter comes up--and you might forward copies to me so that I can have duplicates made if the EPA requests a copy. Second, what was the basis for your reference in the same paragraph of your affidavit to the corporate decision not to invest in such facilities? If any formal corporate document refers to this fact, it would be useful to bring it with you.

If you have any questions, please do not hestiate to give me a call. I look forward to seeing you again on November 14.

Yours sincerely,

John Michael Clear
