Dr. F. F. Heyroth
College of Medicine
University of Cincinnati
Eden Avenue
Cincinnati 19, Ohio

Dear Dr. Heyroth:

I should like to inquire whether you have had a chance to do any work with our APR-128, methyl cyclopentadienyl manganese tricarbonyl. According to our records, if I am correct, you have given us a preliminary opinion regarding the toxicity of the related compound, APR-122, the parent methyl cyclopentadienyl manganese tricarbonyl, but we have heard nothing from you regarding the APR-128 since sending you a sample on April 27, 1955.

Perhaps you have sent us a letter on this compound and I have missed it in perusing our files.

Sincerely yours,

/s/ Hymin Shapiro
