

Shell Oil Company
Interoffice Memorandum

PLAINTIFF'S EXHIBIT

SH-2224

FEBRUARY 13, 1991

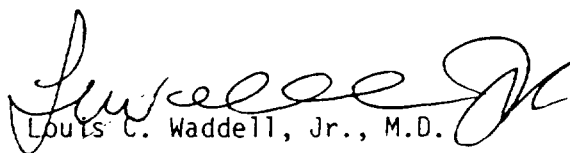

FROM: L. C. WADDELL, JR., M.D., CORPORATE MEDICAL DEPARTMENT
TO: A. J. THOMANN, M.D., DEER PARK MANUFACTURING COMPLEX
SUBJECT: PULMONARY REGISTRY REVIEW, EMPLOYEE NO.

Thank you for sending me the follow-up Pulmonary Registry form on

It appears that all of the necessary actions have been carried out in his case. Your recent information indicated that he does not appear to be on the "retirement" follow-up program that Deer Park Medical Department has for former employees with radiographic evidence of possible asbestos related effects. I would suggest that he be offered an opportunity to take part in that program if he hasn't been invited already.

This should "close out" his case as far as activities in Corporate Medical are concerned. If you have any questions or if other related events occur in his case, please contact me.

Once again, thank you for your continuing cooperation.

Louis C. Waddell, Jr., M.D.
