Dear Assistant Secretary Skipwith,

On behalf of leading aquariums and our tens of millions of members and annual visitors, please find the attached letter to President Trump in strong support for the nation's Marine National Monuments. These Monuments were designated by both Republican and Democratic U.S. Presidents as beacons of U.S. pride in our unique and important natural resources. We showcase these underwater places in our institutions, and we see first-hand the pride they inspire in our visitors. It is very important to us to have these iconic places conserved on behalf of all Americans.

Thank you,

Kim McIntyre
