BESTWALL GYPSUM COMPANY

FOR: St. Louis July 16, 1957 FROM: Paoli Lab.

TO: Mr. Tom Dalton SUBJECT: ACOUSTICAL PLASTER FOR MACHINE APPLICATION

DICTATED BY: J. R. Watt - jc

---

cc: Messrs: C. E. Abbey - Ardmore
O. F. Grieve - Paoli
H. Ohm - St. Louis
Myron Read - Fort Dodge

We recently received a letter from Mr. Abbey advising us that the St. Louis office called him on 7/8/57 and reported the finish coat of our acoustical plaster went on very well and that the plastering contractor, workmen and sales people were very pleased with the performance of the material from start to finish.

We still want a complete report from you on this material as requested in my letter of 7/8/57. Please send the information requested in my letter together with your comments and any Mr. Robertson or the plasterers made concerning working properties, take-up, drying, color, etc. Send this information as soon as possible. This material is to be tried in other areas in the near future and we would like to have this information before these trials are made.

Be sure to advise whether or not the rust around the skylights came through the finish coat.
