Mr. Aykan Hakimagnu, President
Energy Systems Co. Div. of
Aydin Corporation
1900 Avenue of The Stars
Los Angeles, Calif. 90067

Dear Mr. Hakimagnu:

Special Undertaking By Purchasers of
Polychlorinated Biphenyls (PCBs)

You will recall that our ability to supply polychlorinated biphenyls to your company and/or subsidiaries under the Special Undertaking was contingent on your having specific product liability insurance coverage.

According to our records the insurance certificate on file with our Company will expire on December 31, 1972. In order for us to continue shipment of PCB dielectric fluids it will be necessary for us to receive a renewal certificate prior to the above date.

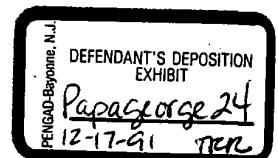

We would also like to remind you that the insurance we require in support of your Special Undertaking is \$10,000,000 if your annual purchases are 200,000 pounds or over, and \$5,000,000 if your annual purchases are under 200,000 pounds.

Please send the insurance certificate addressed to my attention.

Very truly yours,

H. S. Bergen
Director
