INSTRUCTIONS

The groupings of synthetic organic chemicals for which shipment values are to be reported on line 1-22 below, correspond to similar classification groupings for which data are collected by the United States Tariff Commission. The related Section of the U.S. Tariff Commission Report is shown in column (b-3). Commercial shipments reported for this plant (column (b-3) minus column (c)) for each product grouping when combined with shipments for other plants of your company should, in most instances, approximate the sales figures reported to the U.S. Tariff Commission.

Report totals based on net selling values, f.o.b. plant. Net selling values should not include discounts, allowances, freight charges, and excise taxes.

Column (c), Line 1-22 - Do not include chemicals produced and used at this plant in the manufacture of such products as antiseptics, pesticides, preparations, etc. Products shipped as antiseptics, pesticides, preparations, etc., should be reported in column (c) on the specified prepared product lines or, if not separately listed, on lines 81-82.

Section I - ORGANIC CHEMICALS

Report net selling value, f.o.b. plant, after discounts and allowances and exclusive of freight charges and excise taxes.

Include products made elsewhere for this establishment on a contract basis from materials supplied by this establishment. (The cost of these materials should be included in items 5a and 17.)

Exclude products made in this establishment on a contract basis from materials owned by others. Report commission or contract receipts on materials owned by others. Report the cost of these products in item 5b.

Line 81 - RESIDUES - Report the selling value, f.o.b. plant, of products which were resold as originally purchased and not used in further manufacturing, processing, or assembling of products made in this establishment. Report the cost of these products in item 5b.
