FAMOUS SWP WHITES

...THE WHITES THAT STAY WHITE LONGER!

Special *SWP* white that resists mildew

Homes located in sections where mildew is prevalent need extra protection against fungus and mildew that discolor and shorten the life of paint film. Specially compounded SWP Mildew Resistant Gloss White Paint protects against these conditions...*stays smartly white longer!*

SWP MILDEW RESISTANT UNDERCOATER

For two-coat jobs in mildew-affected areas, the first coat should be SWP Mildew Resistant Undercoater followed by a finishing coat of SWP Mildew Resistant Gloss White.

SWP WHITE HOUSE PAINTS

are whiter, more permanent, more beautiful than ever before. The product of the latest advances in scientific paint making. SWP Whites were developed by the world's largest paint research organization, the Sherwin-Williams Research Laboratories.

SWP GLOSS WHITE

Carefully formulated to produce a brilliant, true White, this highest-quality house paint gives homes *smart, long-lasting beauty.* Be sure and specify SWP Gloss White... unless your home needs added protection against industrial fumes, sulphur fumes, or mildew. Special Sherwin-Williams paints protect against these conditions.

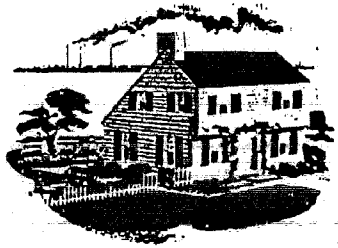

SWP UNDERCOATER

Painted surfaces exposed to the weather wear more than sheltered surfaces. Therefore, *all* surfaces should be uniformed before paint is applied. Ready-to-use SWP Undercoater primes and seals badly weathered painted surfaces or unpainted wood, dries to a dull finish that bonds perfectly with the final paint coat... makes possible *better, longer-lasting paint jobs!*

SWP TRIM SUPER WHITE

SWP Trim Super White is a premium white of unusual brilliance. It is specially designed to produce a fume and mildew resistant finish on exterior trim surfaces, such as doorways, columns, balustrades, shutters and trellises, on which a smooth high gloss finish is particularly desired. Higher in price than Gloss White.

Special *SWP* white that resists smoke and fumes

SWP Fume Resisting Gloss White House Paint is formulated with special oils and pigments to give *added protection* against fumes from factories, oil refineries, coal furnaces, and decaying seaweed. Combining this extra protection with famous SWP beauty and quality, this paint keeps homes in smoky districts gleaming white!

THE COVER-THE-EARTH TRADE MARK IS THE WORLD'S GREATEST GUARANTEE OF PAINT QUALITY!

CONSIDER

THESE 8 IMPORTANT POINTS WHEN YOU BUY PAINT . . .

Planning to paint? There are a number of factors to consider in choosing the paint you use. Whether you want enough to two-coat your home or just enough to paint the porch, demand the very best in *color, quality* and *long life*. Then you will buy wisely, and be sure of dependable results.

1 NO FINER HOUSE PAINT MADE!

The new SWP House Paint is the finest house paint made by Sherwin-Williams, the world's largest paint manufacturer. The Cover-The-Earth trademark is your guarantee of quality!

2 FINEST INGREDIENTS

Only the very finest pigments, oils, and raw materials are used to make SWP. And they are carefully controlled through each step of manufacture from mine to mill in order to guarantee *highest possible quality!*

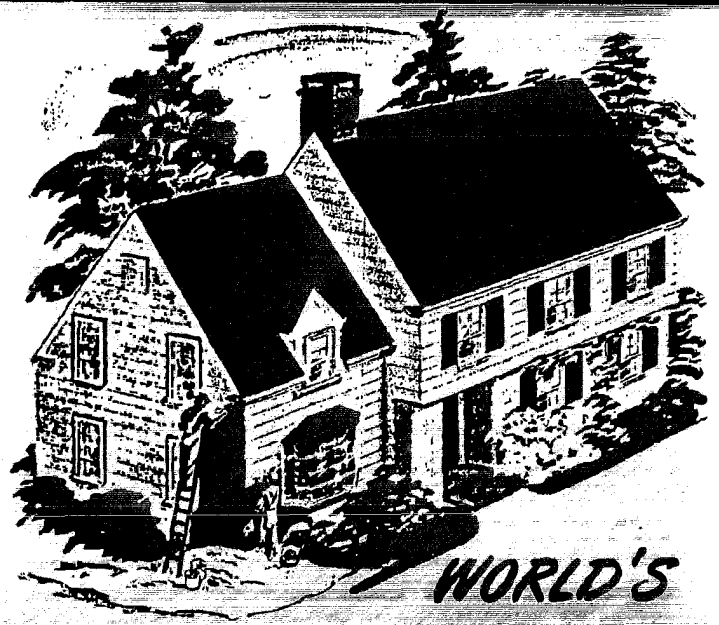

3 WORLD'S LARGEST PAINT RESEARCH LABORATORIES

SWP is formulated and manufactured under the strict control of the Sherwin-Williams Research Laboratories—the world's *largest* research organization devoted exclusively to the advancement of the science of paint making!

4 COSTS LESS THROUGH THE YEARS

Highest quality pigments finely ground result in a tighter film which means years more of beauty and protection! SWP will still be protecting your house long after many paints would have deteriorated!

GENEVA CREAM 478

WORLD'S MOST FAMOUS HOUSE PAINT

SHERWIN-WILLIAMS SWP HOUSE PAINT

These smart new SWP colors are the finest house paints that Sherwin-Williams—world's largest paint manufacturer—has ever made.

Developed by the Sherwin-Williams decorative studios—headquarters for the famous Sherwin-Williams Style Guide—these colors are *cleaner, more permanent* because the pigments and oils that go into them are crushed and refined by Sherwin-Williams. Every step of their manufacture has been under strict Sherwin-Williams control.

You'll enjoy genuine satisfaction when you paint your home with SWP House Paint. You'll know that you have made a sound investment that you'll

IVORY 496

GOOD PAINT GIVES BEST RESULTS WHEN APPLIED BY A MASTER PAINTER

5 REQUIRED FILM THICKNESS

It takes a "required film thickness" of finest quality pigments and oils to stand up year after year. Applied according to directions, SWP produces the "required thickness" of the most durable house paint film known today!

SWP 650 UNDERCOATER

New Lumber—450-500 square feet per gallon—one coat

Repaint—500 square feet per gallon—one coat

SWP HOUSE PAINT

New Lumber—350 square feet per gallon—one coat

Repaint—650 square feet per gallon—one coat

6 SMOOTHER FINISH

Finer grinding on paint mills of latest design and advances in the processing of oils give the new SWP colors a smoother film that retards the collection of dust and soot. That means a cleaner, more attractive house year in and year out.

7 SELF CLEANING

The new, smoother surface of SWP is self-cleaning to a high degree.

8 FADE RESISTANT

The new SWP colors reach a *new* high in permanency.

SWP TRIM COLORS

Paint used on shutters, window sash, doorways, grillwork and similar trim surfaces must take greater punishment than on house siding. The special Trim Colors designated below with a star (★) are especially formulated with extra-permanent colors and other premium price ingredients to insure maximum durability and mildew resistance. Prices, therefore, are slightly higher.
