Wall Finish or Kalsomine	C/L	L.C.L.
Minimum carload 36000#	.22½	.27

Dry Earth Paint from Bowmanstown, Pa.	.18
--	-----

Zinc) Lithopone) from New Jersey Co. shipping points in Pa.	.15
--	-----

To all these rates would be added the 3% war tax.

Lubricating Oil in bbls or cases, from Wolverine Lub. Co. factory	.21½
---	------

At present all rail rates, the rates quoted by the Pacific Mail Co. are of course out of the question. In conversation with them we mentioned that they were quoting very high rates. They did not agree with us however and seemed to think their rates are very favorable. They were probably thinking of the proposed 25% advance in rail rates.

We understand from the Luckenbach S/S Co. that it is their intention to resume service to the Pacific Coast in about one month, but they are not in a position to quote rates at the present time.

We will keep this matter in mind and advise you as soon as we have any definite information.

Very truly yours,

W. F. FULLER & CO.
