IN THE DISTRICT COURT OF

BRAZORIA COUNTY, TEXAS

239TH JUDICIAL DISTRICT

**DEFENDANT CELANESE LTD.'S RESPONSES
TO PLAINTIFF WELDON RUSSELL MOAKE'S FIRST
SET OF INTERROGATORIES, FIRST REQUEST FOR
PRODUCTION AND FIRST REQUEST FOR ADMISSIONS**

TO: Plaintiff Weldon Russell Moake, by and through his attorney, Stephanie Finch,
BARON & BUDD, The Centrum, Suite 1100, 3102 Oak Lawn Avenue, Dallas, Texas
75219

Pursuant to the Texas Rules of Civil Procedure (the “Rules”), Defendant Celanese Ltd. (referenced herein as “Defendant” or “Celanese”) submits these Responses to Plaintiff Weldon Russell Moake’s First Set of Interrogatories, First Request for Production and First Request for Admissions Propounded to Premises Defendant Celanese Ltd. as follows:

GENERAL RESPONSES, OBJECTIONS AND ASSERTIONS OF PRIVILEGE

Defendant makes the following general objections to each and every request and interrogatory directed to it:

1. Celanese objects to Plaintiff's Instruction No. 1. Defendant may produce non-privileged responsive documents in the manner in which they are kept in the ordinary course of business.

2. Defendant objects to the interrogatories and requests to the extent that they seek to compel the disclosure of information specifically exempted from discovery by the privileges afforded in the Texas Rules of Civil Procedure and Article V. of the Texas Rules of Civil Evidence ("Rules of Evidence"), including the attorney/client privilege, the joint defense privilege, the attorney work product doctrine, or the investigative privilege. Withholding of documents or information on the basis of privilege, if any, will be specifically noted as part of Defendant's objections and responses after the discovery request calling for such privileged information and/or documents, if any.

3. Defendant objects to paragraph one of the DEFINITIONS regarding "Defendant," "You," "Your," and "Your Company" and paragraph three regarding "persons" because they are overly broad and unduly burdensome and pertain to corporations other than those who are parties to this suit. Defendant also objects to paragraphs one and three because they include Defendant's attorneys; information and things protected by the attorney client privilege and work product doctrine are not discoverable.

4. Defendant objects to paragraph two of the DEFINITIONS because the definition of the word "document" and the instructions regarding "possession, custody or control" are overly broad, seeks information specifically exempted from discovery by the privileges afforded in the Rules and Rule 503 of the Texas Rules of Civil Evidence, including the attorney work product doctrine, and the attorney client privilege because it exceeds the scope of Rule 192.3 of the Rules. Throughout these responses, Celanese will assume that the word will have its commonly used meaning, as set forth in Rule 192.3(b), and will respond accordingly.

5. Defendant objects to the definitions of "identify" contained in paragraphs 16 and 17 of the DEFINITIONS because they are overly broad, unduly burdensome and harassing.

6. Defendant objects to DEFINITION 6 to the extent information is sought concerning asbestos in a non-friable form.

7. Defendant objects to any discovery request seeking information and/or documents outside of the relevant time frame of 1964 to 1988, which is the time frame identified by plaintiff in his deposition testimony during which he allegedly conducted independent contractor work at Defendant's Premises (i.e., "Defendant's plant(s) located at Corpus Christi, Texas" per Definition 18 herein). Accordingly, it is unduly burdensome, excessively expensive, and harassing to require Celanese to respond to any discovery request seeking information or documents outside of that relevant time frame.

8. Celanese further objects to any discovery request seeking to charge it with knowledge or information held by its "predecessors or subsidiaries" or requiring it to provide information regarding plants other than the one identified by plaintiff in Definition 18 as "Defendant's plant(s) located at Corpus Christi, Texas" and at which Plaintiff Weldon Russell Moake allegedly conducted independent contractor work. Celanese shall refer to that facility throughout these responses as "the Clarkwood facility." Celanese operated multiple facilities and employs thousands of workers. Accordingly, it is unduly burdensome, excessively expensive and harassing to require Celanese to respond to these discovery requests as to all plants.

9. Defendant objects to Plaintiff's discovery requests to the extent they are unlimited in time.

10. Defendant objects to Plaintiff's requests to the extent that they necessarily seek disclosure of trade secrets, proprietary material and other confidential information protected from discovery by the Texas Rules of Civil Procedure.

11. The presence of an objection does not mean that Celanese possesses non-privileged information responsive to a discovery request.

SPECIFIC OBJECTIONS

Each of the following specific responses and objections incorporate by reference the above-stated general responses, objections and assertions of privilege. Subject to the foregoing, Celanese specifically responds as follows:

RESPONSES

INTERROGATORY NO. 1:

For each person who has supplied any information used in answering these interrogatories, state the name, address, job title, length of time employed by Defendant, and a year-by-year list of all other positions, titles, or jobs held when working for Defendant.

RESPONSE:

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence; and
2. The words "supplied any information" are vague and ambiguous.

Subject to these objections, the information contained in these responses is derived from corporate documents, copies of which have previously been produced, or will be produced, and also supplied by former employees of Celanese, whose identities are or will be disclosed in Defendant's Rule 194.2(e) Disclosures.

REQUEST FOR ADMISSION NO. 1:

Admit that Defendant ordered, purchased or otherwise acquired asbestos-containing products, asbestos-containing friction products, and/or machinery requiring the use of asbestos or asbestos-containing products.

RESPONSE:

Admitted.

REQUEST FOR PRODUCTION NO. 1:

If you deny the foregoing request, in whole or in part, produce all documents supporting your denial.

RESPONSE:

Not applicable.

REQUEST FOR ADMISSION NO. 2:

Admit that asbestos-containing products, asbestos-containing friction products, and/or machinery requiring the use of asbestos or asbestos-containing products were utilized on Defendant's Premises between the years 1952 and 1989.

RESPONSE:

Celanese additionally objects to this request because it is overbroad, vague and ambiguous.

Subject to these objections, Celanese admits that, during the relevant time, some asbestos-containing thermal surface insulation, building products and gasket/packing materials were utilized at the plant from time to time.

INTERROGATORY NO. 2:

If you admit the foregoing request, please list all asbestos-containing products used at Defendant's Premises and for each product state the following:

- a. What these products were used for
- b. From whom these products were purchased
- c. Where these products were installed
- d. Specific persons or contractors who install these products
- e. The first year each product was no longer purchased and installed on Defendants' Premises.

RESPONSE:

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence; and
2. It is unlimited in time, overly broad and unduly burdensome.

Subject to these objections, Celanese refers plaintiff to its responses to Request for Admission No. 2, above. By way of further response, Celanese states that purchase and/or usage of asbestos-containing thermal surface insulation products was discontinued in 1972-1973 and that purchase and/or usage of other asbestos-containing materials was discontinued at various times thereafter. Celanese's best source of information on this subject will likely be contained in documents, if any exist. Discovery is ongoing, and Celanese reserves the right to supplement this response and/or produce responsive documents if appropriate.

REQUEST FOR PRODUCTION NO. 2:

Produce all ordering and sales documents pertaining to the purchase or acquisition of such asbestos-containing products for use at Defendant's Premises, including but not limited to invoices, price quotations, purchase orders, requisitions, bills of lading, and other purchasing and/or shipping documents of the similar nature.

RESPONSE:

Celanese additionally objects to this request because:

1. It fails to describe with reasonable particularity the item or category of items sought to be inspected as required by Rule 196.1 of the Texas Rules of Civil Procedure;
2. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
3. It is vague and ambiguous;
4. It is unlimited in time, overly broad and unduly burdensome; and
5. It assumes facts not in evidence and it is based on an improper premise.

Subject to these objections, investigation is ongoing and Celanese reserves the right to amend and/or supplement this response and produce responsive documents, if any, as appropriate.

REQUEST FOR ADMISSION NO. 3:

Admit that during the time Plaintiff was employed by Defendant, it was foreseeable that asbestos-containing products on Defendant's Premises would or could be removed, stripped, replaced or repaired at some time after installation.

RESPONSE:

Celanese additionally objects to this request because it assumes facts not in evidence and because it is based upon an improper premise.

Subject to these objections, denied as stated.

INTERROGATORY NO. 3:

Please state whether any asbestos-containing products in place or in use at Defendant's Premises have been abated at any time.

- a. If so, list each person or company that performed such abatement services (including address and telephone number)
- b. State the dates and locations of each abatement procedure;
- c. State which asbestos-containing products were abated.

RESPONSE:

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
2. It is vague and ambiguous;
3. It is unlimited in time, overly broad and unduly burdensome; and
4. It assumes facts not in evidence and it is based on an improper premise.

Subject to these objections, Celanese believes that removal of asbestos-containing materials would have occurred at various times during the course of the plant's existence.

REQUEST FOR PRODUCTION NO. 3:

Produce all documents that in any way pertain to abatement of asbestos-containing materials on Defendant's Premises, including but not limited to a removal plan or organized written criteria or schedule for the removal of asbestos at Defendant's Premises, and in operation and maintenance plan.

RESPONSE:

Celanese additionally objects to this request because:

1. It fails to describe with reasonable particularity the item or category of items sought to be inspected, as required by Rule 196.1 of the Texas Rules of Civil Procedure;
2. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;

3. It is vague, ambiguous, and unintelligible; and
4. It is unlimited in time, overly broad and unduly burdensome.

Subject to these objections, investigation is ongoing and Celanese reserves the right to amend and/or supplement this response and produce responsive documents, if any, as appropriate.

REQUEST FOR ADMISSION NO. 4:

Admit that Plaintiff worked on premises owned by Defendant or by a predecessor-in-interest of Defendant.

RESPONSE:

Celanese admits that Plaintiff has testified that he supervised Thorpe Insulation Company, Inc. ("TICO") work areas at Celanese's Bishop and Clarkwood plants. Celanese has no documents or information reasonably available to it to confirm Plaintiff's statements.

REQUEST FOR PRODUCTION NO. 4:

If you deny the foregoing request, in whole or in part, produce all documents supporting your denial.

RESPONSE:

Not applicable.

REQUEST FOR PRODUCTION NO. 5:

If you admit the foregoing request, in whole or in part, produce all documents supporting your admission that Plaintiff was on Defendant's Premises.

RESPONSE:

Celanese additionally objects to this request because it fails to describe with reasonable particularity the item or category of items sought to be inspected, as required by Rule 196.1 of the Texas Rules of Civil Procedure.

Subject to these objections, see deposition testimony of Weldon R. Moake. See also the response to Request for Admission No. 4 above.

REQUEST FOR PRODUCTION NO. 6:

Produce all records identifying contractors and/or the employees of contractors who were on your premises between the dates 1952 and 1989, including but not limited to sign-in logs, gate records, visitor's logs, identification badge logs and procedures, and other documents of a similar nature.

RESPONSE:

Celanese additionally objects to this request because:

1. It fails to describe with reasonable particularity the item or category of items sought to be inspected, as required by Rule 196.1 of the Texas Rules of Civil Procedure;
2. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
3. It is vague and ambiguous;
4. It is overly broad and unduly burdensome; and

Subject to these objections, see the documents previously produced to you on July 13, 1999 in Cause No. 97-8-50,930-B, *Arthur Dominguez, et al. v. Owens-Corning Fiberglas, et al.*, in the 135th Judicial District Court of Victoria County, Texas, bates-labeled 000001-006430. See also the Arthur Brothers' contracts produced on April 14, 2000 in the *Dolezal* case. Investigation is ongoing and Celanese reserves the right to supplement this response and/or produce responsive documents regarding TICO, if any, as appropriate.

REQUEST FOR PRODUCTION NO. 7:

Produce all records pertaining to the methods and manner of identification of individuals entering and/or leaving your facilities, between the years 1952 and 1989, including but not limited to fingerprinting or other methods of identifying contractor employees at your premises, and specifically including any fingerprinting or other records identifying the Plaintiff.

RESPONSE:

Celanese additionally objects to this request because:

1. It fails to describe with reasonable particularity the item or category of items sought to be inspected, as required by Rule 196.1 of the Texas Rules of Civil Procedure;

2. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
3. It is vague and ambiguous; and
4. It is overly broad and unduly burdensome.

Subject to these objections, and following a reasonably diligent search, Celanese believes that no documents or materials responsive to this request exist. Investigation is ongoing, and Celanese reserves the right to supplement this response if appropriate.

INTERROGATORY NO. 4:

Identify the contractors who worked on your premises between the years 1952 and 1989 and for each, state:

- a. The type of work performed by the contractor
- b. The dates such work was performed
- c. Identify your employee responsible for monitoring, verifying, or instructing concerning these services to be performed by such contractors.

RESPONSE:

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
2. It is vague and ambiguous; and
3. It is not limited to the time or place at issue in this case; and
4. It is overly broad and unduly burdensome.

Subject to these objections, see deposition testimony of plaintiff Weldon R. Moake regarding the contractor(s) he claims to have worked for at Celanese's premises.

REQUEST FOR PRODUCTION NO. 8:

Produce the contract documents pertaining to the contractors who performed services on Defendant's Premises between the years 1952 and 1989, including but not limited to invitations to bid, requests for proposals, bids, proposals, scope of work, specifications, blueprints, plans, acceptances, contracts, amendments, addenda, change orders, and other contract documents of a similar nature.

RESPONSE:

Celanese additionally objects to this request because:

1. It fails to describe with reasonable particularity the item or category of items sought to be inspected, as required by Rule 196.1 of the Texas Rules of Civil Procedure;
2. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
3. It is vague and ambiguous; and
4. It is overly broad and unduly burdensome.

Subject to these objections, Celanese further states that specifications, blue prints, and work orders may exist. Investigation is ongoing, and relevant non-privileged items that may be responsive to this request, if any, during the time period may be produced at a mutually agreeable time and place.

INTERROGATORY NO. 5:

Identify each employee who was responsible for allowing contractor employees access to Defendant's Premises between the years 1952 and 1989.

RESPONSE:

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
2. It is vague and ambiguous; and
3. It is overly broad and unduly burdensome.

Subject to these objections, Celanese believes that access by contractors such as those who employed plaintiff would have been controlled by plant security.

REQUEST FOR ADMISSION NO. 5:

Admit that Plaintiff worked on Defendant's Premises where Defendant used or applied asbestos-containing products.

RESPONSE:

Celanese additionally objects to this request because it is vague and ambiguous.

Subject to these objections, denied.

REQUEST FOR PRODUCTION NO. 9:

If you deny the foregoing request, in whole or in part, produce all documents supporting your denial.

RESPONSE:

Celanese additionally objects to this request because it fails to describe with reasonable particularity the item or category of items sought to be inspected, as required by Rule 196.1 of the Texas Rules of Civil Procedure.

Subject to these objections, see the deposition testimony of Weldon R. Moake.

INTERROGATORY NO. 6:

Do you contend that Plaintiff was not exposed to asbestos while working at the Defendant's Premise(s) in Corpus Christi, Texas? If the answer is anything other than "no", identify each and every fact which supports this contention.

RESPONSE:

See response to Request for Admission No. 7, below.

REQUEST FOR ADMISSION NO. 6:

Admit that Plaintiff, in the course and scope of his work as an employee of an independent contractor, worked around Defendant's employees who were using and/or applying asbestos-containing products.

RESPONSE:

Celanese additionally objects to this request because it is vague and ambiguous.

Subject to these objections, denied. See deposition testimony of plaintiff Weldon R. Moake.

REQUEST FOR PRODUCTION NO. 10:

If you deny the foregoing request, in whole or in part, produce all documents supporting your denial.

RESPONSE:

Celanese additionally objects to this request because it fails to describe with reasonable particularity the item or category of items sought to be inspected, as required by Rule 196.1 of the Texas Rules of Civil Procedure.

Subject to these objections, see the deposition testimony of Weldon R. Moake.

REQUEST FOR ADMISSION NO. 7:

Admit that Plaintiff worked on and/or around Defendant's Premises in areas where asbestos-containing products were installed, used, prepared for use, replaced or repaired, stored or loaded, unloaded or transported.

RESPONSE:

Celanese additionally objects to this request because it is vague, ambiguous, and compound.

Subject to these objections, Celanese admits that plaintiff has testified he supervised TICO insulation crews conducting independent contractor work on Defendant's Premises and that those crews may possibly have been installing, using, preparing for use, storing, loading and/or transporting asbestos-containing products. Celanese has no information reasonably available to it at this time to confirm plaintiff's statement. See deposition testimony of plaintiff Weldon R. Moake.

REQUEST FOR ADMISSION NO. 8:

Admit that in 1952 Defendant was aware that airborne asbestos dust created a potential health hazard to those who breathed such dust.

RESPONSE:

Celanese admits that, while it may have been aware at that time that long-term exposure to high concentrations of asbestos dust could potentially pose hazards to workers in certain industries, it had no reason to believe that any persons working on its premises stood at risk of incurring any asbestos-related injury.

REQUEST FOR PRODUCTION NO. 11:

If you deny the foregoing request, in whole or in part, produce all documents supporting your denial.

RESPONSE:

Not applicable.

REQUEST FOR ADMISSION NO. 9:

Admit that Defendant was aware of the presence of and/or use of asbestos-containing products on Defendant's Premises during the time period Plaintiff was working on Defendant's Premises.

RESPONSE:

Celanese admits that some asbestos-containing products were present at the Clarkwood facility during the time period at issue.

REQUEST FOR PRODUCTION NO. 12:

Produce any and all photographs or videographic depictions or films depicting the use by you or your employees of any safety precautions (such as containment areas, warning signs, etc.) taken to protect bystanders from the hazards of airborne asbestos resulting from the use of asbestos-containing products by your employees at any locations.

RESPONSE:

Celanese additionally objects to this request because:

1. It fails to describe with reasonable particularity the item or category of items sought to be inspected, as required by Rule 196.1 of the Texas Rules of Civil Procedure;
2. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence; and
3. It is unlimited in time, overly broad and unduly burdensome.

Subject to these objections and after a reasonably diligent inquiry, Celanese states that it is aware of no responsive materials for the time period Plaintiff Weldon R. Moake claims to have worked at the Clarkwood facility.

INTERROGATORY NO. 7:

Please identify any and all warnings ever given by Defendant, if any, to Plaintiffs regarding the hazards of asbestos and the dangers inherent in the inhalation of asbestos fibers.

RESPONSE:

Celanese additionally objects to this request because:

1. It fails to describe with reasonable particularity the item or category of items sought to be inspected, as required by Rule 196.1 of the Texas Rules of Civil Procedure;
2. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence; and
3. It is unlimited in time, overly broad and unduly burdensome.

Subject to these objections, Celanese has no information at this time regarding warnings that may have been given directly to plaintiff Moake. Investigation is ongoing, and Celanese reserves the right to supplement this response if appropriate.

REQUEST FOR PRODUCTION NO. 13:

Produce all such warnings.

RESPONSE:

Not applicable.

REQUEST FOR ADMISSION NO. 10:

Admit that Defendant did not distribute any literature or warnings of any kind to its employees during the period of time Plaintiff worked on Defendant's Premises regarding the potential health hazards to those who breathe airborne asbestos dust.

RESPONSE:

Denied.

REQUEST FOR PRODUCTION NO.14:

If you deny the foregoing, produce all such warnings.

RESPONSE:

See the documents previously produced to you on July 13, 1999 in Cause No. 97-8-50,930-B, *Arthur Dominguez, et al. v. Owens-Corning Fiberglas, et al.*, in the 135th Judicial District Court of Victoria County, Texas, bates-labeled 000001-006430. Discovery is ongoing and Celanese reserves the right to supplement this response and/or produce additional responsive documents, if any, as appropriate.

INTERROGATORY NO. 8:

Describe Defendant's safety policy as it relates to the use of asbestos-containing materials at jobsites where Defendant's employees were performing services. In your answer, please state:

- a. when, if ever, Defendant's employees were first warned about the hazards of asbestos exposure; and
- b. what instructions, if any, were given to Defendant's employees on the identification of materials which might or did contain asbestos.

RESPONSE:

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence;
2. It is unlimited in time, overly broad and unduly burdensome; and
3. It is based upon facts not in evidence and upon an incorrect premise.

Subject to these objections, Celanese believes that its employees were instructed or otherwise knowledgeable about using suitable care when working around high concentrations of dust, to include the use of respiratory protection and other dust control measures as they or their supervisors deemed appropriate. When information about potential asbestos health risks became generally available, additional personal protective equipment and asbestos handling/disposal policies were implemented. From at least some time in the 1970s, personnel were instructed to approach all insulation products and certain types of other materials as though they contained asbestos barring positive evidence to the contrary. Celanese believes that contractor companies working at the plant followed parallel practices. The manufacturer's names of respiratory equipment used at the plant during the time plaintiff claims to have worked there are currently unknown. Investigation is ongoing, and Celanese reserves the right to supplement this response if appropriate.

REQUEST FOR PRODUCTION NO. 15:

Produce all such safety policies.

RESPONSE:

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence; and
2. It is unlimited in time, overly broad and unduly burdensome.

Subject to these objections, see the documents previously produced to you on July 13, 1999 in Cause No. 97-8-50,930-B, *Arthur Dominguez, et al. v. Owens-Corning Fiberglas, et al.*, in the 135th Judicial District Court of Victoria County, Texas, bates-labeled 000001-006430. Investigation is ongoing and Celanese reserves the right to supplement this response and/or produce additional responsive documents, if any, as appropriate.

REQUEST FOR ADMISSION NO. 11:

Admit that Defendant consciously decided not to warn its employees of dangers of asbestos.

RESPONSE:

Denied.

INTERROGATORY NO. 9:

Do you contend that Defendant specifically warned Plaintiff about the hazards of asbestos and asbestos-containing products? If the answer is anything other than "no", identify each and every fact which supports this contention.

RESPONSE:

Celanese refers plaintiff to its response to Interrogatory No. 7 above.

INTERROGATORY NO. 10:

Describe all safety precautions taken by you or your employees (such as containment areas, warning signs, ventilation systems, evacuating the premises, etc.) for the protection of bystanders (including but not limited to Plaintiffs) from the hazards resulting from the use of asbestos-containing products by your employees at any locations.

RESPONSE:

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence; and
2. It is unlimited in time, overly broad and unduly burdensome.

Subject to these objections, see response to Interrogatory No. 8 above. See also the documents previously produced to you on July 13, 1999 in Cause No. 97-8-50,930-B, *Arthur Dominguez, et al. v. Owens-Corning Fiberglas, et al.*, in the 135th Judicial District Court of Victoria County, Texas, bates-labeled 000001-006430. The referenced documents are Celanese's best source of information on the subject, and the information sought may be derived from them by plaintiff as easily as by Celanese. Investigation is ongoing, and Celanese reserves the right to supplement this response if appropriate.

INTERROGATORY NO. 11:

Have you ever provided safety equipment to persons working on Defendant's Premises? If so, please list the safety equipment provided and indicate:

- a. when the equipment was first provided
- b. to whom the equipment was provided
- c. under what circumstances the equipment was provided
- d. Further, identify the person with the most knowledge of your "safety equipment" policies.

RESPONSE:

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence; and
2. It is unlimited in time, overly broad and unduly burdensome.

Subject to these objections, Celanese states that respiratory protection was issued as appropriate to its own employees from the time the plant began operations. Contractors working at the plant generally provided respiratory protection to their own employees although Celanese occasionally loaned specialized respiratory equipment to contractors undertaking unusual tasks. The respiratory protection referenced above was used to

protect individuals against excessive concentrations of dusts, vapors, and fumes. After reasonable inquiry, Celanese is currently unaware of any "one person with the most knowledge" of its safety equipment policies at the Clarkwood facility.

REQUEST FOR ADMISSION NO. 12:

Admit that Defendant did not continuously provide face masks to contract employees working with or around asbestos from 1952-1989 for the purpose of protecting these employees from inhaling asbestos.

RESPONSE:

Celanese additionally objects to this request because:

1. The phrase "contract employees" is vague and ambiguous; and
2. It is improperly limited in time, overbroad and unduly burdensome.

Subject to these objections, after reasonable inquiry, the information known or easily obtainable is insufficient to enable Celanese to admit or deny this request.

INTERROGATORY NO. 12:

State in detail what tests have been conducted with regard to the quantity, quality, or threshold limit values of asbestos dust or particles to which workers were exposed while using, working with or around, or installing asbestos-containing products in any of your facilities. Please state where and when these tests were conducted, by whom these tests were conducted, and the results of any such test.

RESPONSE:

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence; and
2. It is unlimited in time, overly broad and unduly burdensome.

Subject to these objections, Celanese states that, on information and belief, air monitoring relevant to asbestos occurred at different times at the Clarkwood facility. Investigation is ongoing, and Celanese reserves the right to supplement this response if appropriate.

INTERROGATORY NO. 13:

Do you contend that Defendant, Defendant's representatives, insurance carriers and/or agents performed any measurements and/or studies prior to 1952 to determine the quantity of asbestos fibers in the air at the Celanese Ltd. facility? If the answer is anything other than "no", identify each and every fact which supports this contention.

RESPONSE:

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence; and
2. It is vague, ambiguous, and nonsensical.

Subject to these objections, Celanese states after a reasonably diligent inquiry the answer to this interrogatory is unknown at the present time. Investigation is ongoing, and Celanese reserves the right to supplement this response if appropriate.

INTERROGATORY NO. 14:

Please state each time any regulatory agency or other governing body has inspected the Defendant's premises to determine if health and safety regulations governing exposure to asbestos were being followed. Include in your response the date and results of each inspection, and state whether a written report was generated.

RESPONSE:

Celanese additionally objects to this request because:

1. It seeks matters that are not relevant to the subject matter of this lawsuit or reasonably calculated to lead to the discovery of admissible evidence; and
2. It is unlimited in time, overly broad and unduly burdensome.

Subject to these objections, Celanese states that, to its knowledge, no regulatory agencies have inspected the Clarkwood facility to determine compliance with asbestos regulations. Investigation is ongoing, and Celanese reserves the right to supplement this response if appropriate.

REQUEST FOR ADMISSION NO. 13:

Admit that you did not erect containment barriers to prevent emission of asbestos dust at the worksites where your employees were using asbestos-containing materials, including the worksites where Plaintiff was present.

RESPONSE:

Celanese additionally objects to this request because:

1. It is not limited to the plant at issue and is unlimited in time;
2. It seeks information that is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence; and
3. It assumes facts not in evidence and is based upon an incorrect premise.

Subject to these objections, denied as stated.

REQUEST FOR PRODUCTION NO. 16:

If you deny the foregoing request, in whole or in part, produce all documents supporting your denial.

RESPONSE:

Celanese additionally objects to this request because it fails to describe with reasonable particularity the item or category of items sought to be inspected, as required by Rule 196.1 of the Texas Rules of Civil Procedure.

Subject to these objections, see the documents previously produced to you on July 13, 1999 in Cause No. 97-8-50,930-B, *Arthur Dominguez, et al. v. Owens-Corning Fiberglas, et al.*, in the 135th Judicial District Court of Victoria County, Texas, bates-labeled 000001-006430. Discovery is ongoing and Celanese reserves the right to supplement this response and/or produce additional responsive documents, if any, as appropriate.

REQUEST FOR ADMISSION NO. 14:

Admit that you did not utilize engineering controls such as isolation or enclosure at the worksites where your employees were using asbestos-containing materials, including the worksites where Plaintiff was present.

RESPONSE:

Celanese additionally objects to this request because:

1. It is not limited to the plant at issue and is unlimited in time;
2. It seeks information that is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence; and
3. It assumes facts not in evidence and is based upon an incorrect premise.

Subject to these objections, denied as stated.

REQUEST FOR PRODUCTION NO. 17:

If you deny the foregoing request, in whole or in part, produce all documents supporting your denial.

RESPONSE:
